#### Item 8.01. Other Events

##### ***NSP-Minnesota 2020 Wind Repower***

On Dec. 23, 2020, the Minnesota Public Utilities Commission verbally approved the repowering of 651 MW of owned wind projects with a capital investment of approximately \$750 million as well as a 20 MW Ewington Repowered purchased power agreement. These projects are estimated to save customers approximately \$160 million over the next 25 years.

##### ***PSCo Transportation Electrification Plan (TEP)***

On Dec. 23, 2020, the Colorado Public Utilities Commission verbally approved PSCo's TEP, which authorizes rider recovery of comprehensive new electric vehicle utility programs across residential, commercial, multi-family and public charging sectors. The approval establishes precedent for utility-owned charging infrastructure, chargers and amortization of rebates, including point-of-sale rebates for electric vehicles. The TEP approval authorizes approximately \$110 million in spending with budget flexibility of up to 125%, or approximately \$138 million over three years.

Certain information discussed in this Current Report on Form 8-K is forward-looking information that involves risks, uncertainties and assumptions. Such forward-looking statements, including our expectations regarding the regulatory proceedings, as well as assumptions and other statements are intended to be identified in this document by the words "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "objective," "outlook," "plan," "project," "possible," "potential," "should," "will," "would," and similar expressions. Actual results may vary materially. Forward-looking statements speak only as of the date they are made, and we expressly disclaim any obligation to update any forward-looking information. The following factors, in addition to those discussed in Xcel Energy's, NSP-Minnesota's and PSCo's Annual Report on Form 10-K for the year ended Dec. 31, 2019, and subsequent filings with the Securities and Exchange Commission, could cause actual results to differ materially from management expectations as suggested by such forward-looking information: uncertainty around the impacts and duration of the COVID-19 pandemic; operational safety, including our nuclear generation facilities; successful long-term operational planning; commodity risks associated with energy markets and production; rising energy prices and fuel costs; qualified employee work force and third-party contractor factors; ability to recover costs, changes in regulation and subsidiaries' ability to recover costs from customers; reductions in our credit ratings and the cost of maintaining certain contractual relationships; general economic conditions, including inflation rates, monetary fluctuations and their impact on capital expenditures and the ability of Xcel Energy and its subsidiaries to obtain financing on favorable terms; availability or cost of capital; our customers' and counterparties' ability to pay their debts to us; assumptions and costs relating to funding our employee benefit plans and health care benefits; our subsidiaries' ability to make dividend payments; tax laws; effects of geopolitical events, including war and acts of terrorism; cyber security threats and data security breaches; seasonal weather patterns; changes in environmental laws and regulations; climate change and other weather; natural disaster and resource depletion, including compliance with any accompanying legislative and regulatory changes; and costs of potential regulatory penalties.
