CDW CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except per share data, unless otherwise noted)

1. Description of Business and Summary of Significant Accounting Policies

Description of Business

CDW Corporation (“Parent”), a Fortune 500 company and member of the S&P 500 Index, is a leading multi-brand provider of information technology (“IT”) solutions to business, government, education and healthcare customers in the United States (“US”), the United Kingdom (“UK”) and Canada. The Company’s broad array of offerings ranges from discrete hardware and software products to integrated IT solutions and services that include on-premise and cloud capabilities across hybrid infrastructure, digital experience and security.

Throughout this report, the terms the “Company” and “CDW” refer to Parent and its subsidiaries.

Parent has two 100% owned subsidiaries, CDW LLC and CDW Finance Corporation. CDW LLC is an Illinois limited liability company that, together with its 100% owned subsidiaries, holds all material assets and conducts all business activities and operations of the Company. CDW Finance Corporation is a Delaware corporation formed for the sole purpose of acting as co-issuer of certain debt obligations and does not hold any material assets or engage in any business activities or operations.

Basis of Presentation

The accompanying unaudited interim Consolidated Financial Statements as of March 31, 2025 and for the three months ended March 31, 2025 and 2024 (the “Consolidated Financial Statements”) have been prepared in conformity with accounting principles generally accepted in the United States of America (“US GAAP”) and the rules and regulations of the US Securities and Exchange Commission (the “SEC”) for interim financial statements. Certain information and footnote disclosures normally included in financial statements prepared in accordance with US GAAP have been condensed or omitted pursuant to the rules and regulations of the SEC. The presentation of the Consolidated Financial Statements requires the Company to make estimates and assumptions that affect reported amounts and related disclosures. In the opinion of management, the Consolidated Financial Statements contain all adjustments (consisting of a normal, recurring nature) necessary to present fairly the Company’s financial position, results of operations, comprehensive income, cash flows and changes in stockholders’ equity as of the dates and for the periods indicated. The unaudited results of operations for such interim periods reported are not necessarily indicative of results for the full year.

These Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and the notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2024 (the “December 31, 2024 Consolidated Financial Statements”). The significant accounting policies and estimates used in preparing these Consolidated Financial Statements were applied on a basis consistent with those reflected in the December 31, 2024 Consolidated Financial Statements.

Principles of Consolidation

The Consolidated Financial Statements include the accounts of Parent and its 100% owned subsidiaries. All intercompany transactions and accounts are eliminated in consolidation.

2. Recent Accounting Pronouncements

In November 2024, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2024-03, Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-240). This ASU requires entities to disclose disaggregated information about specific natural expense categories in the notes to the financial statements. The ASU is effective for all public entities for annual periods beginning after December 15, 2026, and interim periods beginning after December 15, 2027, with early adoption permitted. Entities should apply the amendments on a prospective basis, but retrospective application is permitted. The Company is currently evaluating the impact the ASU will have on its disclosures.

In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures. This ASU enhances existing income tax disclosures primarily through standardization and disaggregation of rate reconciliation categories and income taxes paid by jurisdiction. The ASU is effective for all public entities for annual periods beginning after December 15, 2024, with early adoption permitted. Entities should apply the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except per share data, unless otherwise noted)

amendments on a prospective basis, but retrospective application is permitted. The Company is currently evaluating the impact this ASU will have on its disclosures.

3. Acquisitions

Mission Cloud Services, Inc. ("Mission")

On November 27, 2024, the Company completed its acquisition of Mission through a purchase of all the issued and outstanding equity interests for a base purchase price of \$330 million. The purchase price allocation is preliminary and is subject to change during the measurement period, which is not to exceed 12 months from the date of the acquisition. During the three months ended March 31, 2025, there were no material adjustments to the preliminary purchase price allocation.

4. Accounts Receivable and Contract Balances

Accounts Receivable

The following table details the total accounts receivable recognized and the related classification on the Consolidated Balance Sheets:

	March 31, 2025	December 31, 2024
Accounts receivable, current ⁽¹⁾	\$ 4,454.2	\$ 4,386.4
Unbilled accounts receivable, current ⁽¹⁾	880.2	749.4
Unbilled accounts receivable, noncurrent ⁽²⁾	1,002.9	923.0
Total accounts receivable	<u>\$ 6,337.3</u>	<u>\$ 6,058.8</u>

- (1) Accounts receivable, current and Unbilled accounts receivable, current are presented within Accounts receivable, net of allowance for credit losses on the Consolidated Balance Sheets.
- (2) Unbilled accounts receivable, noncurrent is presented net of allowance for credit losses herein and is presented within Accounts receivable and other assets, noncurrent on the Consolidated Balance Sheets.

From time to time, the Company transfers certain accounts receivable, without recourse, to third-party financial companies as a method to reduce the Company's credit exposure and accelerate cash collections. Such transfers are recognized as a sale and the related accounts receivable are derecognized from the Consolidated Balance Sheet upon receipt of payment from the third-party financing company. During the three months ended March 31, 2025 and 2024, the Company sold approximately \$191 million and \$93 million of accounts receivable, respectively.

Contract Balances

Contract assets and liabilities represent the difference in the timing of revenue recognition from receipt of cash from customers. Contract assets represent revenue recognized on performance obligations satisfied or partially satisfied for which the Company has no unconditional right to consideration. Contract liabilities consist of payments received from customers, or such consideration that is contractually due, in advance of providing the product or performing services. The following table details information about the Company's contract balances recognized on the Consolidated Balance Sheets:

	March 31, 2025	December 31, 2024
Contract assets ⁽¹⁾	\$ 114.3	\$ 97.1
Contract liabilities ⁽²⁾⁽³⁾	\$ 548.3	\$ 522.3

- (1) Contract assets are presented within Prepaid expenses and other on the Consolidated Balance Sheets.
- (2) Includes \$28 million and \$31 million of long-term contract liabilities that are presented within Long-term liabilities - Accounts payable and other liabilities on the Consolidated Balance Sheets as of March 31, 2025 and December 31, 2024, respectively.
- (3) For the three months ended March 31, 2025 and 2024, the Company recognized revenue of \$201 million and \$175 million related to its contract liabilities that were included in the beginning balance of the respective periods.

A contract's transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. The following table represents the total transaction price for the remaining

performance obligations as of March 31, 2025 related to non-cancelable services contracts whereby the Company is acting as the principal and the duration is longer than 12 months, which is expected to be recognized over future periods.

	Within 1 Year	Years 1-2	Years 2-3	Thereafter
Remaining performance obligations	\$ 123.8	\$ 77.5	\$ 31.1	\$ 12.3

5. Inventory Financing Agreements

The Company has entered into agreements with financial institutions to facilitate the purchase of inventory from designated suppliers under certain terms and conditions to enhance liquidity. Under these agreements, the Company receives extended payment terms and agrees to pay the financial institutions a stated amount of confirmed invoices from its designated suppliers. The Company does not incur any interest or other incremental expenses associated with these agreements as balances are paid when they are due. Additionally, the Company has no involvement in establishing the terms or conditions of the arrangements between its suppliers and the financial institutions.

The amounts outstanding under these agreements as of March 31, 2025 and December 31, 2024 were \$344 million and \$355 million, respectively, and are separately presented as Accounts payable-inventory financing on the Consolidated Balance Sheets. The majority of such outstanding amounts relates to a floorplan sub-facility that is incorporated in the Company's Revolving Loan Facility, as defined within Note 6 (Debt). A portion of the Company's availability under the Revolving Loan Facility is reserved to cover the obligation to pay the financial institution. For additional information regarding the Revolving Loan Facility, see Note 6 (Debt).

As of March 31, 2025, the Company is in compliance with the covenants under its credit agreements and indentures.

CDW CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except per share data, unless otherwise noted)

Credit Facility

The Company has a variable rate senior unsecured revolving loan facility (the “Revolving Loan Facility”) from which it may draw tranches denominated in US dollars, British pounds or Euros. The interest rate is based on Secured Overnight Financing Rate (“SOFR”) plus a spread adjustment and a margin based on the Company’s senior unsecured rating. The Revolving Loan Facility is used by the Company for borrowings, issuances of letters of credit and floorplan financing. As of March 31, 2025, the Company could have borrowed up to an additional \$1.3 billion under the Revolving Loan Facility. As of March 31, 2025, the Revolving Loan Facility had \$335 million reserved for the floorplan sub-facility.

Term Loan

The senior unsecured term loan facility (the “Term Loan Facility”) has a variable interest rate. The interest rate is based on SOFR plus a spread adjustment and a margin based on the Company’s senior unsecured rating. No mandatory payments are required on the remaining principal amount until its maturity date on December 1, 2026.

Unsecured Senior Notes

The unsecured senior notes have a fixed interest rate, which is paid semi-annually.

Receivable Financing

The receivable financing liability relates to certain accounts receivable transferred to third-party financial institutions that did not qualify as a sale under the terms of the agreements. While the terms of such agreements are on a nonrecourse basis, the transfers of accounts receivable could not achieve certain criteria that would allow derecognition of the accounts receivable. The proceeds from these arrangements are recognized as a liability and the associated accounts receivable remains on the Consolidated Balance Sheet until the liability is settled. During the three months ended March 31, 2025, the Company executed \$14 million of transfers under these agreements.

Fair Value

The fair values of the unsecured senior notes were estimated using quoted market prices for identical liabilities that are traded in over-the-counter secondary markets. The fair value of the Term Loan Facility was estimated using dealer quotes and other market observable inputs for comparable liabilities. The unsecured senior notes and Term Loan Facility were classified as Level 2 within the fair value hierarchy. The carrying value of the Revolving Loan Facility approximates fair value.

The approximate fair values and related carrying values of the Company’s long-term debt, including current maturities and excluding unamortized discount and unamortized debt issuance costs, were as follows:

	March 31, 2025	December 31, 2024
Fair value	\$ 5,666.1	\$ 5,602.8
Carrying value	\$ 5,883.9	\$ 5,875.6

7. Fair Value Measurements and Financial Instruments

Derivative Instruments

The Company may use derivative financial instruments to manage its exposure to interest rate risk. The Company does not hold or issue derivative financial instruments for trading or speculative purposes. The following sections detail the Company’s derivative financial instruments.

Interest Rate Collars

The Company’s variable interest rate debt creates interest rate risk. The Company has interest rate collar agreements that provide for a contractually specified interest rate cap and an interest rate floor based on SOFR. The Company receives payment from the counterparty if SOFR is greater than the cap or pays the counterparty if SOFR is below the

CDW CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except per share data, unless otherwise noted)

floor. If SOFR is between the floor and cap, no payment is due to either party. There were no new interest rate collar agreements executed during the three months ended March 31, 2025.

As of March 31, 2025 and December 31, 2024, the interest rate collar agreements were classified within Long-term liabilities - Accounts payable and other liabilities on the Consolidated Balance Sheets for which the fair value was not material. The total notional amount of the interest rate collar agreements was \$400 million as of March 31, 2025 and December 31, 2024, and these agreements mature on September 30, 2026.

The fair values of the Company's interest rate collar agreements are classified as Level 2 in the fair value hierarchy. The valuation of the interest rate collar agreements is derived using a discounted cash flow analysis on the expected cash receipts or cash disbursements that would occur if variable interest rates rise above or fall below the strike rates of the interest rate cap and interest rate floor, respectively. This analysis reflects the contractual terms of the interest rate collar agreements, including the period to maturity, and uses observable market-based inputs, including SOFR curves and implied volatilities. The Company also incorporates insignificant credit valuation adjustments to appropriately reflect the respective counterparty's nonperformance risk in the fair value measurements. The counterparty credit spreads are based on publicly available credit information obtained from a third-party credit data provider.

The interest rate collars are designated as cash flow hedges. The changes in the fair value of derivatives that qualify as cash flow hedges are recorded in Accumulated other comprehensive loss ("AOCL") and are subsequently reclassified into Interest expense, net in the period when the hedged forecasted transaction affects earnings. During the three months ended March 31, 2025 and 2024, the changes in fair value for the effective portion of the derivative financial instruments and the reclassification from AOCL to Interest expense, net were not material.

Short-term Investments

Short-term investments, which have a maturity that extends beyond three months but within one year, is comprised of a certificate of deposit. As of March 31, 2025, the amortized cost of the certificate of deposit was \$217 million and is classified within Short-term investments on the Consolidated Balance Sheets. The fair value of the short-term investment approximates the carrying value due to its short-term nature and is classified as a Level 2 in the fair value hierarchy.

8. Income Taxes

Income tax expense was \$79 million and \$61 million for the three months ended March 31, 2025 and 2024, respectively. The effective income tax rate, expressed by calculating the income tax expense as a percentage of Income before income taxes, was 26.0% and 21.9% for the three months ended March 31, 2025 and 2024, respectively.

The effective income tax rate for the three months ended March 31, 2025 differed from the US federal statutory rate of 21.0% primarily due to state and local income taxes. The effective income tax rate for the three months ended March 31, 2024 differed from the US federal statutory rate of 21.0% primarily due to state and local income taxes, partially offset by excess tax benefits on equity-based compensation.

9. Earnings Per Share

The numerator for both basic and diluted earnings per share is Net income. The denominator for basic earnings per share is the weighted-average shares outstanding during the period.

A reconciliation of basic weighted-average shares outstanding to diluted weighted-average shares outstanding is as follows:

	Three Months Ended March 31,	
	2025	2024
Basic weighted-average shares outstanding	132.5	134.4
Effect of dilutive securities ⁽¹⁾	1.0	1.6
Diluted weighted-average shares outstanding ⁽²⁾	133.5	136.0

(1) The dilutive effect of outstanding stock options, restricted stock units, performance share units and Coworker Stock Purchase Plan units is reflected in the diluted weighted-average shares outstanding using the treasury stock method.

CDW CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(dollars in millions, except per share data, unless otherwise noted)

- (2) There were fewer than 0.2 million potential common shares excluded from diluted weighted-average shares outstanding for both the three months ended March 31, 2025 and 2024. Inclusion of these common shares in diluted weighted-average shares outstanding would have had an anti-dilutive effect.

10. Commitments and Contingencies

The Company is party to various legal proceedings that arise in the ordinary course of its business, which include commercial, intellectual property, employment, tort and other litigation matters. The Company is also subject to audit by federal, state, international, national, provincial and local authorities, and by various partners, group purchasing organizations and customers, including government agencies, relating to purchases and sales under various contracts. In addition, the Company is subject to indemnification claims under various contracts. From time to time, certain customers of the Company file voluntary petitions for reorganization or liquidation under the US bankruptcy laws or similar laws of the jurisdictions for the Company's business activities outside of the US. In such cases, certain pre-petition payments received by the Company could be considered preference items and subject to return to the bankruptcy administrator.

As of March 31, 2025, the Company does not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these proceedings and matters, if any, has been incurred. However, the ultimate resolutions of these proceedings and matters are inherently unpredictable. As such, the Company's Consolidated Financial Statements could be adversely affected in any particular period by the unfavorable resolution of one or more of these proceedings or matters.

The Company received a Civil Investigative Demand, issued by the Department of Justice ("DOJ") on June 11, 2024, in connection with a False Claims Act investigation. The DOJ requested information relating to bids the Company submitted for contracts funded in whole or in part by the Schools and Libraries Program (E-Rate Program). The Company is cooperating with the DOJ and, at this stage of the investigation, is unable to assess the probability of any outcome or the range of possible loss, if any.

11. Segment Information

The Company has three reportable segments: Corporate, Small Business, and Public. In addition, there are two other operating segments: CDW UK and CDW Canada, both of which do not meet the reportable segment quantitative thresholds and, accordingly, are included in an all other category ("Other"). The organizational structure of the Company's segments is determined based on how the chief operating decision maker ("CODM"), who is the Chief Executive Officer, evaluates performance, allocates resources and manages operations, which is primarily based on customer base. Specifically, the Corporate reportable segment is primarily comprised of private sector business customers with more than 250 employees in the US, the Small Business reportable segment is primarily comprised of private sector business customers with up to 250 employees in the US, and the Public reportable segment is comprised of government agencies and education and healthcare institutions in the US.

The accounting policies used to determine profit and loss measures are consistent across all reportable segments and on a consolidated basis. Additionally, the CODM reviews key profit and loss measures for each reportable segment consistently based on both segment Gross profit and Operating income. Specifically, the CODM reviews Gross profit by segment to evaluate forecasting and overall profitability performance and Operating income by segment to make investment strategy and performance-based compensation decisions. Segment information for Total assets and capital expenditures is not presented given that such information is not used in measuring segment performance or allocating resources between segments.

The Company has centralized logistics and headquarters functions that provide services to the segments. The logistics function includes purchasing, distribution and fulfillment services to support the Corporate, Small Business and Public segments. As a result, costs and intercompany charges associated with the logistics function are fully allocated to all of these segments based on a percent of Net sales. The centralized headquarters function provides services in areas such as accounting, information technology, marketing, legal and coworker services. Headquarters function costs that are not allocated to the segments are included under the heading of "Headquarters" in the tables below.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Unless otherwise indicated or the context otherwise requires, as used in this "Management's Discussion and Analysis of Financial Condition and Results of Operations," the terms "we," "us," "the Company," "our," "CDW" and similar terms refer to CDW Corporation and its subsidiaries. "Management's Discussion and Analysis of Financial Condition and Results of Operations" should be read in conjunction with the unaudited interim Consolidated Financial Statements and the related notes included elsewhere in this report and with the audited Consolidated Financial Statements and the related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024. This discussion contains forward-looking statements that are subject to numerous risks and uncertainties. Actual results may differ materially from those contained in any forward-looking statements. See "Forward-Looking Statements" at the end of this discussion.

Overview

CDW Corporation ("Parent"), a Fortune 500 company and member of the S&P 500 Index, is a leading multi-brand provider of information technology ("IT") solutions to business, government, education and healthcare customers in the United States ("US"), the United Kingdom ("UK") and Canada. Our broad array of offerings ranges from discrete hardware and software products to integrated IT solutions and services that include on-premise and cloud capabilities across hybrid infrastructure, digital experience and security.

We have three reportable segments: Corporate, Small Business and Public. Our Corporate segment primarily serves US private sector business customers with more than 250 employees. Our Small Business segment primarily serves US private sector business customers with up to 250 employees. Our Public segment is comprised of government agencies and education and healthcare institutions in the US. We also have two other operating segments: CDW UK and CDW Canada, each of which do not meet the reportable segment quantitative thresholds and, accordingly, are included in an all other category ("Other").

We are vendor, technology and consumption model unbiased, with a solutions portfolio including more than 100,000 products and services from more than 1,000 leading and emerging brands. Our solutions are delivered in physical, virtual and cloud-based environments through approximately 10,850 customer-facing coworkers, including sellers, highly-skilled specialists and engineers. We are a leading sales channel partner for many original equipment manufacturers, software publishers, cloud providers (collectively, our "vendor partners"), and wholesale distributors, whose products we sell or include in the solutions we offer. We provide our vendor partners with a cost-effective way to reach customers and deliver a consistent brand experience through our established end-market coverage, technical expertise and extensive customer access.

We may sell all or only select products that our vendor partners offer. Each vendor partner agreement provides for specific terms and conditions, which may include one or more of the following: product return privileges, price protection policies, purchase discounts and vendor incentive programs, such as purchase or sales rebates and cooperative advertising reimbursements. We also resell software for major software publishers. Our agreements with software publishers allow the end-user customer to acquire software or licensed products and services. In addition to helping our customers determine the best software solutions for their needs, we help them manage their software agreements, including warranties and renewals. A significant portion of our advertising and marketing expenses are reimbursed through cooperative advertising programs with our vendor partners. These programs are at the discretion of our vendor partners and are typically tied to sales or other commitments to be met by us within a specified period of time.

Trends and Key Factors Affecting our Financial Performance

We believe the following key factors may have a meaningful impact on our business performance, influencing our ability to generate sales and achieve our targeted financial and operating results:

- General economic conditions are a key factor affecting our results as they can impact our customers' willingness and ability to spend on information technology. The prevailing economic conditions remain challenging, largely due to ongoing uncertainty surrounding evolving global trade law provisions or regulations, along with other drivers. These dynamics may continue to influence supply chains, drive inflationary pressures and affect interest rates. The uncertainty in the current economic environment has impacted and may continue to impact the timing of our customer's investments in technology.
- Customers are evaluating the complex technology landscape in order to balance priorities and focus on solutions that lead to business optimization, cost management and security risk management, resulting in a more measured approach to their IT spending. We have orchestrated solutions by leveraging security, software, hybrid and cloud offerings to help customers achieve their objectives.
- Changes and uncertainty related to spending policies, budget priorities, timing and funding levels are key factors influencing the purchasing levels of government, healthcare and education customers. As the duration and ongoing

impact of current economic conditions remain uncertain, current and future budget priorities and funding levels for government, healthcare and education customers may be adversely affected, leading to lower IT spend.

- Technology trends drive customer purchasing behaviors in the market. Current technology trends are focused on delivering greater flexibility and efficiency, as well as designing and managing IT securely. These trends are driving customer adoption of cloud, artificial intelligence, software defined architectures and hybrid on-premise and off-premise combinations. The trends are further driven by the evolution of the IT consumption model to more “as a service” offerings, including software as a service and infrastructure as a service, in addition to ongoing managed and professional service arrangements. Technology trends are likely to evolve as customers prioritize spend that will produce the most important outcomes for their business.

Key Business Metrics

We monitor a number of financial and non-financial measures and ratios on a regular basis in order to track the progress of our business and make adjustments as necessary. Financial measures include both US GAAP, the accounting principles generally accepted in the United States of America, and Non-GAAP, which excludes or includes amounts that are not normally included or excluded in the most directly comparable measure calculated and presented in accordance with US GAAP. We believe that the most important of these measures and ratios include Gross profit, Gross profit margin, Operating income, Operating income margin, Non-GAAP operating income, Non-GAAP operating income margin, Net income, Non-GAAP net income, Net income per diluted share, Non-GAAP net income per diluted share, Average daily sales, Net cash provided by operating activities, Adjusted free cash flow, Cash conversion cycle, and Net debt. These measures and ratios are closely monitored by management, so that actions can be taken, as necessary, in order to achieve financial objectives.

For the definitions, discussion of management’s use of Non-GAAP measures and reconciliations to the most directly comparable US GAAP measure, see “Results of Operations - Non-GAAP Financial Measure Reconciliations.”

*nm - Not meaningful

Three months ended March 31, 2025 compared with the three months ended March 31, 2024

Net sales increased \$326 million, or 6.7%, with higher Net sales across all operating segments. The increase was primarily due to customer demand for notebooks/mobile devices, desktops, software and services, partially offset by a decrease across various hardware categories. While economic uncertainty continues to persist, certain end-markets experienced improved customer spending during the quarter.

Gross profit increased \$59 million, or 5.5%, primarily due to higher Net sales, partially offset by lower gross profit margin. Gross profit margin decreased 20 basis points due to an increased mix into lower margin products, primarily notebooks/mobile devices, which was partially offset by a higher contribution of netted down revenue from software as a service.

Selling and administrative expenses increased \$26 million, or 3.5%, primarily due to higher performance-based compensation, transformation and other related costs and amortization expense on acquisition-related intangible assets, partially offset by lower coworker-related costs.

Operating income increased \$33 million, or 10.2%, to \$361 million for the three months ended March 31, 2025, compared to \$328 million for the three months ended March 31, 2024.

Interest expense, net increased \$6 million, or 11.3%, primarily due to increased interest expense on higher debt levels and lower interest income earned.

Income tax expense was \$79 million and \$61 million for the three months ended March 31, 2025 and 2024, respectively. The effective income tax rate, expressed by calculating the income tax expense as a percentage of Income before income taxes, was 26.0% and 21.9% for the first three months ended March 31, 2025 and 2024, respectively.

The effective income tax rate for the three months ended March 31, 2025 differed from the US federal statutory rate of 21.0% primarily due to state and local income taxes. The effective income tax rate for the three months ended March 31, 2024 differed from the US federal statutory rate of 21.0% primarily due to state and local income taxes, partially offset by excess tax benefits on equity-based compensation.

The higher effective income tax rate for the three months ended March 31, 2025 as compared to the same period of the prior year was primarily attributable to lower excess tax benefits on equity-based compensation.

Three months ended March 31, 2025 compared with the three months ended March 31, 2024

Corporate segment Net sales increased \$100 million, or 4.7%, primarily due to an increase in notebooks/mobile devices and software, partially offset by a decrease in data storage and servers.

Corporate segment Gross profit dollars increased \$27 million, or 5.4%, primarily due to higher Net sales. Gross profit margin increased 10 bps, to 23.9%, due to increased netted down revenue from software as a service.

Corporate segment Operating income increased \$43 million, or 24.0%, primarily due to higher Gross profit dollars and lower coworker-related costs, partially offset by higher performance-based compensation and amortization expense on acquisition-related intangible assets.

Small Business segment Net sales increased \$24 million, or 6.2%, primarily due to an increase in data storage and servers and notebooks/mobile devices.

Small Business segment Gross profit decreased \$1 million, or 1.3%, primarily due to lower gross profit margin on higher Net sales. Gross profit margin decreased 170 bps, to 21.9%, due to decreased netted down revenue from software as a service.

Small Business segment Operating income decreased \$3 million, or 6.7%, primarily due to lower Gross profit dollars.

Public segment Net sales increased \$153 million, or 8.9%, primarily due to an increase in notebooks/mobile devices in education and healthcare sales channels, an increase in desktops and software in the healthcare sales channel and an increase in services across all sales channels, partially offset by a decrease in other hardware.

Public segment Gross profit dollars increased \$21 million, or 6.2%, due to higher Net sales, partially offset by lower gross profit margin. Gross profit margin decreased 50 bps, to 19.5%, due to an increased mix into lower margin products, primarily notebooks/mobile devices and desktops.

Public segment Operating income increased \$15 million, or 12.1%, primarily due to higher Gross profit dollars and lower coworker-related costs, partially offset by higher performance-based compensation and provision for expected credit losses.

Net sales in Other, increased \$49 million, or 7.8%, primarily due to an increase in notebooks/mobile devices within the UK operations.

Other Gross profit dollars increased \$12 million, or 9.5%, primarily due to higher Net sales and Gross profit margin. Gross profit margin increased 30 bps, to 19.4%, attributed to an increase in netted down revenue from software as a service.

Other Operating income increased \$14 million, or 54.5%, primarily due to higher Gross profit dollars related to the UK operations.

Non-GAAP Financial Measure Reconciliations

Generally, a non-GAAP financial measure is a numerical measure of a company's performance or financial condition that either excludes or includes amounts that are not normally included or excluded in the most directly comparable measure calculated and presented in accordance with US GAAP. Non-GAAP measures used by management may differ from similar measures used by other companies, even when similar terms are used to identify such measures.

Our non-GAAP performance measures include Non-GAAP operating income, Non-GAAP operating income margin, Non-GAAP net income, Non-GAAP net income per diluted share and Net sales on a constant currency basis, and our non-GAAP financial condition measures include Free cash flow and Adjusted free cash flow. These non-GAAP performance measures and non-GAAP financial condition measures are collectively referred to as "non-GAAP financial measures."

Non-GAAP operating income excludes, among other things, charges related to the amortization of acquisition-related intangible assets, equity-based compensation and the associated payroll taxes, acquisition and integration expenses, transformation initiatives and workplace optimization. Non-GAAP operating income margin is defined as Non-GAAP operating income as a percentage of Net sales. Non-GAAP net income and Non-GAAP net income per diluted share exclude, among other things, charges related to the amortization of acquisition-related intangible assets, equity-based compensation and the associated payroll taxes, acquisition and integration expenses, transformation initiatives, workplace optimization and their associated income tax effects. Net sales on a constant currency basis is defined as Net sales excluding the impact of foreign currency translation on Net sales. Free cash flow is defined as Net cash provided by operating activities less capital expenditures. Adjusted free cash flow is defined as Free cash flow adjusted to include certain cash flows from financing activities incurred in the normal course of operations or as capital expenditures.

We believe our non-GAAP performance measures provide analysts, investors and management with useful information regarding the underlying operating performance of our business, as they remove the impact of items that management believes are not reflective of underlying operating performance. Management uses these measures to evaluate period-over-period performance as management believes they provide a more comparable measure of the underlying business. We also present non-GAAP financial condition measures as we believe they provide analysts, investors and management with more information regarding our liquidity and capital resources. Certain non-GAAP financial measures are also used to determine certain components of performance-based compensation.

We have included reconciliations of our non-GAAP financial measures to the most comparable US GAAP financial measures for the three months ended March 31, 2025 and 2024 below.

Seasonality

While we have not historically experienced significant seasonality throughout the year, sales in our Public segment have historically been higher in the second and third quarter than in other quarters primarily due to the buying patterns of education and government customers.

Liquidity and Capital Resources

Overview

We finance our operations and capital expenditures with cash from operations and borrowings under our variable rate senior unsecured revolving loan facility (the “Revolving Loan Facility”). As of March 31, 2025, we had \$1.3 billion of availability for borrowings under our Revolving Loan Facility. Our liquidity and borrowing plans are established to align with our financial and strategic planning processes and ensure we have the necessary funding to meet our operating commitments, which primarily include the purchase of inventory, payroll and general expenses. We also take into consideration our overall capital allocation strategy, which includes dividend payments, assessment of debt levels, acquisitions and share repurchases. We believe we have adequate sources of liquidity and funding available for at least the next year; however, there are a number of factors that may negatively impact our available sources of funds. The amount of cash generated from operations will be dependent upon factors such as the successful execution of our business plan, general economic conditions and working capital management.

Long-Term Debt and Financing Arrangements

As of March 31, 2025, we had total unsecured indebtedness of \$5.9 billion, and we were in compliance with the covenants under our credit agreements and indentures.

We may from time to time repurchase one or more series of our outstanding unsecured senior notes, depending on market conditions, contractual commitments, our capital needs and other factors. Repurchases of our senior notes may be made by open market or privately negotiated transactions and may be pursuant to Rule 10b5-1 plans or otherwise.

For additional information regarding our debt and refinancing activities, see Note 6 (Debt) to the accompanying Consolidated Financial Statements.

Inventory Financing Arrangements

We have entered into agreements with certain financial intermediaries to facilitate the purchase of inventory from various suppliers under certain terms and conditions to enhance working capital. These amounts are classified separately as Accounts payable-inventory financing on the Consolidated Balance Sheets. We do not incur any interest expense or other incremental expenses associated with these agreements as balances are paid when they are due. For additional information, see Note 5 (Inventory Financing Arrangements) to the accompanying Consolidated Financial Statements.

Share Repurchase Program

During the three months ended March 31, 2025, we repurchased 1.1 million shares of our common stock for \$200 million under the previously announced share repurchase program. For additional information on our share repurchase program, see “Part II, Item 2, Unregistered Sales of Equity Securities and Use of Proceeds.”

Dividends

A summary of 2025 dividend activity for our common stock is as follows:

Dividend Amount	Declaration Date	Record Date	Payment Date
\$0.625	February 4, 2025	February 25, 2025	March 11, 2025

On May 7, 2025, we announced that our Board of Directors declared a quarterly cash dividend on our common stock of \$0.625 per share. The dividend will be paid on June 10, 2025 to all stockholders of record as of the close of business on May 26, 2025.

The payment of any future dividends will be at the discretion of our Board of Directors and will depend upon our results of operations, financial condition, business prospects, capital requirements, contractual restrictions (including in current or future agreements governing our indebtedness), restrictions imposed by applicable law, tax considerations and other factors that our Board of Directors deems relevant.

Accounts payable-trade	231.5	(138.9)	370.4
Other	39.5	30.6	8.9
Net cash provided by operating activities	\$ 287.2	\$ 440.0	\$ (152.8)

(1) Includes items such as depreciation and amortization, deferred income taxes, provision for credit losses and equity-based compensation expense.

Net cash provided by operating activities decreased \$153 million for the three months ended March 31, 2025 compared to March 31, 2024. This decrease is primarily attributable to Accounts receivable and Merchandise inventory, partially offset by Accounts payable-trade. The decrease from Accounts Receivable was primarily due to higher sales activity in the first quarter of 2025 and timing of collections, including multi-year transactions. The decrease from Merchandise inventory is primarily due to customer-driven stocking positions as a result of higher demand. The increase from Accounts payable-trade is primarily due to higher sales activity in the first quarter of 2025 and timing of payments, including multi-year transactions.

In order to manage our working capital and operating cash needs, we monitor our cash conversion cycle, defined as days of sales outstanding in accounts receivable plus days of supply in inventory minus days of purchases outstanding in accounts payable, based on a rolling three-month average. Components of our cash conversion cycle are as follows:

(in days)	March 31,	
	2025	2024
Days of sales outstanding (DSO) ⁽¹⁾	86	75
Days of supply in inventory (DIO) ⁽²⁾	13	14
Days of purchases outstanding (DPO) ⁽³⁾	(84)	(73)
Cash conversion cycle	15	16

- (1) Represents the rolling three-month average of the balance of the current portion of Accounts receivable, net at the end of the period, divided by average daily Net sales for the same three-month period. Also incorporates components of other miscellaneous receivables.
- (2) Represents the rolling three-month average of the balance of Merchandise inventory at the end of the period divided by average daily Cost of sales for the same three-month period.
- (3) Represents the rolling three-month average of the combined balance of Accounts payable-trade, excluding cash overdrafts, and Accounts payable-inventory financing at the end of the period divided by average daily Cost of sales for the same three-month period.

The cash conversion cycle decreased to 15 days at March 31, 2025, compared to 16 days at March 31, 2024. The overall decrease was driven by DIO due to inventory levels relative to sales activity in the respective periods. Both DSO and DPO increased due to multi-year transactions and the timing of collections and payments, respectively. If customers continue to shift their software purchases to multi-year arrangements, unbilled receivables are expected to increase, resulting in a higher DSO. This increase is expected to be offset by a corresponding increase in accounts payable and DPO as the timing of payments due to vendors is aligned with the collections due from customers. Additionally, netted down revenue results in an increase to both DSO and DPO as the corresponding receivables and payables reflect the gross amounts due from customers and due to vendors while the corresponding sales and cost of sales are reflected on a net basis within Net sales.

Investing Activities

Net cash used in investing activities remained relatively consistent at an increase of \$2 million for the three months ended March 31, 2025 compared to March 31, 2024.

Financing Activities

Net cash used in financing activities increased \$102 million for the three months ended March 31, 2025 compared to March 31, 2024. This increase was primarily driven by higher share repurchases in 2025 compared to 2024.

Issuers and Guarantors of Debt Securities

Each series of our outstanding unsecured senior notes (the “Notes”) are issued by CDW LLC and CDW Finance Corporation (the “Issuers”) and are guaranteed by Parent and certain of CDW LLC’s direct and indirect, 100% owned, domestic subsidiaries (the “Guarantor Subsidiaries” and, together with Parent, the “Guarantors”). All guarantees by Parent and the Guarantor Subsidiaries are joint and several, and full and unconditional; provided that guarantees by the Guarantor Subsidiaries are subject to certain customary release provisions contained in the indentures governing the Notes.

The Notes and the related guarantees are the Issuers’ and the Guarantors’ senior unsecured obligations and are:

- structurally subordinated to all existing and future indebtedness and other liabilities of our non-guarantor subsidiaries; and
- rank equal in right of payment with all of the Issuers’ and the Guarantors’ existing and future unsecured senior debt.

The following tables set forth Balance Sheet information as of March 31, 2025 and December 31, 2024, and Statement of Operations information for the three months ended March 31, 2025 and for the year ended December 31, 2024. The financial information includes the accounts of the Issuers and the accounts of the Guarantors (the “Obligor Group”). The financial information of the Obligor Group is presented on a combined basis and the intercompany balances and transactions between the Obligor Group have been eliminated.

Critical Accounting Policies and Estimates

Our critical accounting policies have not changed from those reported in “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2024.

Recent Accounting Pronouncements

The information set forth in Note 2 (Recent Accounting Pronouncements) to the accompanying Consolidated Financial Statements is incorporated herein by reference.

Forward-Looking Statements

This report contains “forward-looking statements” within the meaning of the federal securities laws. All statements other than statements of historical fact are forward-looking statements. These statements relate to analyses and other information, which are based on forecasts of future results or events and estimates of amounts not yet determinable. These statements also relate to our future prospects, growth, developments and business strategies. We claim the protection of The Private Securities Litigation Reform Act of 1995 for all forward-looking statements in this report.

These forward-looking statements are identified by the use of terms and phrases such as “anticipate,” “assume,” “believe,” “estimate,” “expect,” “goal,” “intend,” “plan,” “potential,” “predict,” “project,” “target” and similar terms and phrases or future or conditional verbs such as “could,” “may,” “should,” “will,” and “would.” However, these words are not the exclusive means of identifying such statements. Although we believe that our plans, intentions and other expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that we will achieve those plans, intentions or expectations. All forward-looking statements are subject to risks and uncertainties that may cause actual results or events to differ materially from those that we expected.

Important factors that could cause actual results or events to differ materially from our expectations, or cautionary statements, are disclosed under the section entitled “Trends and Key Factors Affecting our Financial Performance” above, the section entitled “Risk Factors” included in our Annual Report on Form 10-K for the year ended December 31, 2024 and from time to

time in our subsequent Quarterly Reports on Form 10-Q and our other US Securities and Exchange Commission (“SEC”) filings and public communications. These factors include, among others, inflationary pressures; level of interest rates; CDW’s relationships with vendor partners, wholesale distributors and terms of their agreements; continued innovations in technology by CDW’s vendor partners; the use or capabilities of artificial intelligence; substantial competition that could reduce CDW’s market share; the continuing development, maintenance and operation of CDW’s information technology systems; potential breaches of data security and failure to protect our information technology systems from cybersecurity threats; potential failures to provide high-quality services to CDW’s customers; potential losses of any key personnel, significant increases in labor costs or ineffective workforce management; potential service failures or disruptions related to outsourcing arrangements with certain of CDW’s business processes; potential adverse occurrences at one of CDW’s primary facilities or third-party data centers, including as a result of climate change; increases in the cost of commercial delivery services or disruptions of those services; CDW’s exposure to accounts receivable and inventory risks; future acquisitions or alliances; fluctuations in CDW’s operating results; fluctuations in foreign currency; global and regional economic and political conditions, including the impact of pandemics and armed conflicts; decreases, delays or changes in spending on technology products and services, including impacts of adverse changes in government spending and funding policies and federal procurement policies; potential interruptions of the flow of products from suppliers including uncertainty over global trade policies and the financial impact of related tariffs; potential failures to comply with Public segment contracts or applicable laws and regulations; current and future legal proceedings, investigations and audits, including intellectual property infringement claims; changes in laws, including regulations or interpretations thereof, and including evolving laws and regulations and regulatory overhaul during any changes in federal administration, or the potential failure to meet stakeholder expectations on environmental sustainability and corporate responsibility matters; CDW’s level of indebtedness; restrictions imposed by agreements relating to CDW’s indebtedness on its operations and liquidity; failure to maintain the ratings assigned to CDW’s debt securities by rating agencies; changes in, or the discontinuation of, CDW’s share repurchase program or dividend payments; and other risk factors or uncertainties identified from time to time in CDW’s filings with the SEC. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by those cautionary statements as well as other cautionary statements that are made from time to time in our other SEC filings and public communications. You should evaluate all forward-looking statements made in this report in the context of these risks and uncertainties.

We caution you that the important factors referenced above may not reflect all of the factors that could cause actual results or events to differ from our expectations. In addition, we cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our operations in the way we expect. The forward-looking statements included in this report are made only as of the date hereof or, with respect to any documents incorporated by reference, available at the time such document was prepared or filed with the SEC. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

See “Quantitative and Qualitative Disclosures of Market Risks” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2024. As of March 31, 2025, there have been no material changes in this information.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company’s management, with the participation of the Company’s Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company’s disclosure controls and procedures (as such term is defined in Rule 13a-15(e) or Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) as of the end of the period covered by this report. Based on such evaluation, the Company’s management, including the Company’s Chief Executive Officer and Chief Financial Officer, has concluded that, as of the end of such period, the Company’s disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act, and that information is accumulated and communicated to the Company’s management, including the Company’s Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely discussions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in the Company’s internal control over financial reporting during the three months ended March 31, 2025 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
