#### Item 8.01. Other Events

On Feb. 8, 2021, Southwestern Public Service Company (SPS), a New Mexico corporation, and a wholly owned subsidiary of Xcel Energy Inc., filed an electric rate case with the Public Utility Commission of Texas (PUCT) and its 81 municipalities with original rate jurisdiction seeking an increase in base rates of approximately \$143 million. SPS' net rate increase to Texas customers is expected to be approximately \$74 million, or 9.2%, as a result of offsetting \$69 million in fuel cost savings and production tax credits (PTCs) from the Sagamore wind project.

The request is primarily driven by additional capital investment in new and upgraded electric facilities and equipment since SPS' previous rate case in 2019, including the 522-megawatt Sagamore wind farm.

The request is based on a return on equity of 10.35%, an equity ratio of 54.60% (based on actual capital structure), a Texas retail rate base of approximately \$3.3 billion and a historic test year based on the 12-month period ended Dec. 31, 2020 (with the final three months based on estimates). In March 2021, SPS will file to update estimates to actuals through Dec. 31, 2020.

Additionally, the request includes the loss of 400 megawatts from a wholesale transmission customer and changes to depreciation rates to reflect a reduction to the service lives of SPS' Tolk power plant (from 2037 to 2032) and the coal handling assets of the Harrington facility (to 2024).

Summary of SPS' request

Rate Request (Millions of Dollars)	
Sagamore wind project	\$ 67
Other capital investments	25
Cost of capital	20
Property taxes	8
Lower sales, partially offset by changes in O&M	8
Allocator changes	4
Depreciation rate change	3
Other, net	8
<b>Total rate request</b>	<b>\$ 143</b>
Fuel cost reductions and PTCs — Sagamore wind project	(69)
<b>Net rate increase</b>	<b>\$ 74</b>

SPS is requesting the PUCT set current rates as temporary on March 15, 2021. Once final rates are approved, a surcharge will be requested from March 15, 2021 through the effective date of new base rates. A PUCT decision is expected in the first quarter of 2022.

Certain information discussed in this Current Report on Form 8-K is forward-looking information that involves risks, uncertainties and assumptions. Such forward-looking statements, including our expectations regarding net rate increases to consumers and regarding the regulatory proceedings, as well as assumptions and other statements are intended to be identified in this document by the words "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "objective," "outlook," "plan," "project," "possible," "potential," "should," "will," "would," and similar expressions. Actual results may vary materially. Forward-looking statements speak only as of the date they are made, and we expressly disclaim any obligation to update any forward-looking information. The following factors, in addition to those discussed in Xcel Energy's and SPS' Annual Report on Form 10-K for the year ended Dec. 31, 2019, and subsequent filings with the Securities and Exchange Commission, could cause actual results to differ materially from management expectations as suggested by such forward-looking information: uncertainty around the impacts and duration of the COVID-19 pandemic; operational safety, including our nuclear generation facilities; successful long-term operational planning; commodity risks associated with energy markets and production; rising energy prices and fuel costs; qualified employee work force and third-party contractor factors; ability to recover costs; changes in regulation and subsidiaries' ability to recover costs from customers; reductions in our credit ratings and the cost of maintaining certain contractual relationships; general economic conditions, including inflation rates, monetary fluctuations and their impact on capital expenditures and the ability of Xcel Energy Inc. and its subsidiaries to obtain financing on favorable terms; availability or cost of capital; our customers' and counterparties' ability to pay their debts to us; assumptions and costs relating to funding our employee benefit plans and health care benefits; our subsidiaries' ability to make dividend payments; tax laws; effects of geopolitical events, including war and acts of terrorism; cyber security threats and data security breaches; seasonal weather patterns; changes in environmental laws and regulations; climate change and other weather; natural disaster and resource depletion, including compliance with any accompanying legislative and regulatory changes; and costs of potential regulatory penalties.

---

## SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Feb. 8, 2021
