MONSTER BEVERAGE CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Tabular Dollars in Thousands, Except Per Share Amounts) (Unaudited)

1. BASIS OF PRESENTATION

Reference is made to the Notes to Consolidated Financial Statements, in Monster Beverage Corporation and Subsidiaries (the “Company”) Annual Report on Form 10-K for the year ended December 31, 2022 for a summary of significant accounting policies utilized by the Company and its consolidated subsidiaries and other disclosures, which should be read in conjunction with this Quarterly Report on Form 10-Q (“Form 10-Q”).

The Company’s condensed consolidated financial statements included in this Form 10-Q have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and Securities and Exchange Commission (“SEC”) rules and regulations applicable to interim financial reporting. They do not include all the information and footnote disclosures normally included in annual financial statements prepared in accordance with GAAP. The information set forth in these interim condensed consolidated financial statements for the three- and six-months ended June 30, 2023 and 2022, respectively, is unaudited and reflects all adjustments, which include only normal recurring adjustments and which in the opinion of management are necessary to make the interim condensed consolidated financial statements not misleading. Results of operations for periods covered by this report may not necessarily be indicative of results of operations for the full year.

The preparation of financial statements in conformity with GAAP necessarily requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from these estimates.

Treasury Stock Retirement – On March 10, 2023, the Company retired 170.0 million shares (stock split adjusted) of treasury stock owned by the Company. The retired treasury stock had a carrying value of approximately \$4.69 billion. The Company’s accounting policy upon the formal retirement of treasury stock is to deduct its par value from common stock and to reflect any excess of cost over par as a deduction from retained earnings.

Stock Split – On February 28, 2023, the Company announced a two-for-one stock split of the Company’s common stock to be effected in the form of a 100% stock dividend. The common stock dividend was issued on March 27, 2023 (the “Stock Split”) and the Company’s common stock began trading at the split adjusted price on March 28, 2023. Accordingly, all per share amounts, average common stock outstanding, common stock outstanding, common stock repurchased and equity-based compensation presented in the condensed consolidated financial statements and notes have been adjusted retroactively, where applicable, to reflect the Stock Split. Stockholders’ equity has been retroactively adjusted, where applicable, to give effect to the Stock Split for all periods presented by reclassifying the par value of the additional shares issued in connection with the Stock Split to Common Stock from Retained Earnings and Additional Paid-in Capital.

Derivative Financial Instruments – The Company uses derivative financial instruments for the purpose of hedging risk exposures to fluctuations in foreign currency exchange rates and aluminum commodity prices. The Company’s derivative instruments are recorded in the consolidated balance sheets at fair value. The Company values each derivative financial instrument by obtaining valuation information from a reliable and observable market source. For a derivative designated as a cash flow hedge, the derivative’s mark to fair value is initially recorded as a component of accumulated other comprehensive income (loss) and subsequently reclassified into earnings when the hedged item affects earnings, unless it is probable that the forecasted transaction will not occur. Derivatives that do not qualify for hedge accounting are marked to fair value with gains and losses immediately recorded in earnings. In the consolidated statements of cash flows, derivative activities are classified based on the cash flows of the items being hedged. Upon the dedesignation of an effective derivative contract, the gains or losses are deferred in accumulated other comprehensive income (loss) until the originally hedged item affects earnings, unless it is probable the hedged item will not occur, at which time it is recognized immediately. Any gains or losses incurred after the dedesignation date are recorded in earnings immediately.

Recent Accounting Pronouncements

There have been no changes in recently issued or adopted accounting pronouncements that would materially impact the Company from those disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022.

2. REVENUE RECOGNITION

Revenues are accounted for in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 606, “Revenue from Contracts with Consumers”. The Company has four operating and reportable segments: (i) Monster Energy® Drinks segment (“Monster Energy® Drinks”), which is primarily comprised of the Company’s Monster Energy® drinks, Reign Total Body Fuel® high performance energy drinks, Monster Tour Water® and Reign Storm® total wellness energy drinks, (ii) Strategic Brands segment (“Strategic Brands”), which is primarily comprised of the various energy drink brands acquired from The Coca-Cola Company (“TCCC”) in 2015 as well as the Company’s affordable energy brands, (iii) Alcohol Brands segment (“Alcohol Brands”), which is primarily comprised of the various craft beers and hard seltzers purchased as part of the acquisition of CANarchy Craft Brewery Collective LLC (“CANarchy”) on February 17, 2022 (the “CANarchy Transaction”) as well as The Beast Unleashed™ flavored malt beverages (“FMBs”) and (iv) Other segment (“Other”), which is primarily comprised of certain products sold by American Fruits and Flavors, LLC, a wholly-owned subsidiary of the Company, to independent third-party customers (the “AFF Third-Party Products”).

The Company’s Monster Energy® Drinks segment primarily generates net operating revenues by selling ready-to-drink packaged energy drinks primarily to bottlers and full service beverage bottlers/distributors (“bottlers/distributors”). In some cases, the Company sells ready-to-drink packaged energy drinks directly to retail grocery and specialty chains, wholesalers, club stores, mass merchandisers, convenience and gas chains, drug stores, foodservice customers, value stores, e-commerce retailers and the military.

The Company’s Strategic Brands segment primarily generates net operating revenues by selling “concentrates” and/or “beverage bases” to authorized bottling and canning operations. Such bottlers generally combine the concentrates and/or beverage bases with sweeteners, water and other ingredients to produce ready-to-drink packaged energy drinks. The ready-to-drink packaged energy drinks are then sold by such bottlers to other bottlers/distributors and to retail grocery and specialty chains, wholesalers, club stores, mass merchandisers, convenience and gas chains, foodservice customers, drug stores, value stores, e-commerce retailers and the military. To a lesser extent, the Strategic Brands segment generates net operating revenues by selling certain ready-to-drink packaged energy drinks to bottlers/distributors.

The Company’s Alcohol Brands segment primarily generates operating revenues by selling kegged and ready-to-drink canned beers, hard seltzers and FMBs primarily to beer distributors in the United States.

The majority of the Company’s revenue is recognized when it satisfies a single performance obligation by transferring control of its products to a customer. Control is generally transferred when the Company’s products are either shipped or delivered based on the terms contained within the underlying contracts or agreements. Certain of the Company’s bottlers/distributors may also perform a separate function as a co-packer on the Company’s behalf. In such cases, control of the Company’s products passes to such bottlers/distributors when they notify the Company that they have taken possession or transferred the relevant portion of the Company’s finished goods. The Company’s general payment terms are short-term in duration. The Company does not have significant financing components or payment terms. The Company did not have any material unsatisfied performance obligations as of June 30, 2023 and December 31, 2022.

The Company excludes from revenues all taxes assessed by a governmental authority that are imposed on the sale of its products and collected from customers.

Distribution expenses to transport the Company’s products, where applicable, and warehousing expense after manufacture are accounted for within operating expenses.

Promotional and other allowances (variable consideration) recorded as a reduction to net sales for the Company’s energy drink products primarily include consideration given to the Company’s non-alcohol bottlers/distributors or retail customers including, but not limited to, the following:

- discounts granted off list prices to support price promotions to end-consumers by retailers;
- reimbursements given to the Company’s bottlers/distributors for agreed portions of their promotional spend with retailers, including slotting, shelf space allowances and other fees for both new and existing products;

(Tabular Dollars in Thousands, Except Per Share Amounts) (Unaudited)

- the Company's agreed share of fees given to bottlers/distributors and/or directly to retailers for advertising, in-store marketing and promotional activities;
- the Company's agreed share of slotting, shelf space allowances and other fees given directly to retailers, club stores and/or wholesalers;
- incentives given to the Company's bottlers/distributors and/or retailers for achieving or exceeding certain predetermined sales goals;
- discounted or free products;
- contractual fees given to the Company's bottlers/distributors related to sales made directly by the Company to certain customers that fall within the bottlers'/distributors' sales territories; and
- commissions to TCCC based on the Company's sales to wholly-owned subsidiaries of TCCC (the "TCCC Subsidiaries") and/or to TCCC bottlers/distributors accounted for under the equity method by TCCC (the "TCCC Related Parties").

The Company's promotional allowance programs for its energy drink products are executed through separate agreements in the ordinary course of business. These agreements generally provide for one or more of the arrangements described above and are of varying durations, typically ranging from one week to one year. The Company's promotional and other allowances for its energy drink products are calculated based on various programs with bottlers/distributors and retail customers, and accruals are established at the time of initial product sale for the Company's anticipated liabilities. These accruals are based on agreed upon terms as well as the Company's historical experience with similar programs and require management's judgment with respect to estimating consumer participation and/or bottler/distributor and retail customer performance levels. Differences between such estimated expenses and actual expenses for promotional and other allowance costs have historically been insignificant and are recognized in earnings in the period such differences are determined. Promotional and other allowances for our Alcohol Brands segment primarily include price promotions where permitted.

Amounts received pursuant to new and/or amended distribution agreements entered into with certain bottlers/distributors relating to the costs associated with terminating the Company's prior distributors, are accounted for as deferred revenue and recognized as revenue ratably over the anticipated life of the respective distribution agreements, generally over 20 years.

The Company also enters into license agreements that generate revenues associated with third-party sales of non-beverage products bearing the Company's trademarks including, but not limited to, clothing, hats, t-shirts, jackets, helmets and automotive wheels.

Management believes that adequate provision has been made for cash discounts, returns and spoilage based on the Company's historical experience.

5. FAIR VALUE OF CERTAIN FINANCIAL ASSETS AND LIABILITIES

ASC 820, "Fair Value Measurement", provides a framework for measuring fair value and requires disclosures regarding fair value measurements. ASC 820 defines fair value as the price that would be received on the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs, where available. The three levels of inputs required by the standard that the Company uses to measure fair value are summarized below.

- **Level 1:** Quoted prices in active markets for identical assets or liabilities.
- **Level 2:** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.
- **Level 3:** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

ASC 820 requires the use of observable market inputs (quoted market prices) when measuring fair value and requires a Level 1 quoted price to be used to measure fair value whenever possible.

All of the Company's short-term and long-term investments are classified within Level 1 or Level 2 of the fair value hierarchy. The Company's valuation of its Level 1 investments is based on quoted market prices in active markets for identical securities. The Company's valuation of its Level 2 investments is based on other observable inputs, specifically a market approach which utilizes valuation models, pricing systems, mathematical tools and other relevant information for the same or similar securities. The Company's valuation of its Level 2 foreign currency exchange contracts is based on quoted market prices of the same or similar instruments, adjusted for counterparty risk. There were no transfers between Level 1 and Level 2 measurements during the three- and six-months ended June 30, 2023, or during the year-ended December 31, 2022, and there were no changes in the Company's valuation techniques.

6. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

Cash Flow Hedging Strategy

The Company uses cash flow hedges to minimize the variability in cash flows of forecasted transactions caused by fluctuations in commodity prices. The changes in the fair values of derivatives designated as cash flow hedges are recorded in accumulated other comprehensive income (loss) (“AOCI”) and are reclassified into the line item in our condensed consolidated statement of income in which the hedged items are recorded in the same period that the hedged items affect earnings. The changes in the fair values of hedges that are determined to be ineffective are immediately reclassified from AOCI into earnings. The maximum length of time for which the Company hedges its exposure to the variability in future cash flows is currently less than two years.

The Company has entered into commodity hedge contracts to mitigate the price risk associated with a portion of its forecasted aluminum purchases. These derivative instruments were designated as part of the Company’s commodity cash flow hedging program. The objective of this hedging program is to reduce the variability of cash flows associated with future purchases of aluminum. The total notional values of derivatives that were designated and qualified for this program were \$30.4 million as of June 30, 2023. Transactions under the commodity cash flow hedging program were executed beginning in May 2023.

The following table presents the impact that changes in the fair values of derivatives designated as cash flow hedges had on other comprehensive income (“OCI”), AOCI and earnings:

Three-months ended June 30, 2023			
Derivatives designated as hedging instruments	Gain (loss) recognized in AOCI	Location of gain (loss) recognized in income	Gain (loss) reclassified from AOCI into income

As of June 30, 2023, the Company estimates that it will reclassify into earnings net gains (losses) of (\$1.0) million from the amount recorded in AOCI as the anticipated cash flows occur during the next 12 months.

Economic (Non-Designated) Hedging Strategy

The Company is exposed to foreign currency exchange rate risks related primarily to its foreign business operations. During the six-months ended June 30, 2023 and the year-ended December 31, 2022, the Company entered into forward currency exchange contracts with financial institutions to create an economic hedge to specifically manage a portion of the foreign exchange risk exposure associated with certain consolidated subsidiaries' non-functional currency denominated assets and liabilities. All foreign currency exchange contracts of the Company that were outstanding as of June 30, 2023 have terms of one month or less. The Company does not enter into forward currency exchange contracts for speculation or trading purposes.

The Company has not designated its foreign currency exchange contracts as hedge transactions. Therefore, gains and losses on the Company's foreign currency exchange contracts are recognized in interest and other income (expense), net, in the condensed consolidated statements of income, and are largely offset by the changes in the fair value of the underlying economically hedged item. The total notional values of derivatives related to our foreign currency economic hedges were \$176.0 million and \$299.8 million as of June 30, 2023 and December 31, 2022, respectively.

The net gains (losses) on derivatives not designated as hedging instruments in the condensed consolidated statements of income were as follows:

11. COMMITMENTS AND CONTINGENCIES

The Company had purchase commitments aggregating approximately \$309.3 million at June 30, 2023, which represented commitments made by the Company and its subsidiaries to various suppliers of raw materials for the production of its products. These obligations vary in terms, but are generally satisfied within one year.

The Company had contractual obligations aggregating approximately \$380.4 million at June 30, 2023, which related primarily to sponsorships and other marketing activities.

The Company has a credit facility with HSBC Bank (China) Company Limited, Shanghai Branch, of \$15.0 million. At June 30, 2023, the interest rate on borrowings under the line of credit was 5.5%. As of June 30, 2023, \$2.7 million was outstanding on this line of credit.

Litigation — From time to time in the normal course of business, the Company is named in litigation, including labor and employment matters, personal injury matters, consumer class actions, intellectual property matters and claims from prior distributors. Although it is not possible to predict the ultimate outcome of such litigation, based on the facts known to the Company, management believes that such litigation in aggregate will likely not have a material adverse effect on the Company's financial position or results of operations.

The Company evaluates, on a quarterly basis, developments in legal proceedings and other matters that could cause an increase or decrease in the amount of the liability that is accrued, if any, and any related insurance reimbursements. As of June 30, 2023, \$0.3 million of loss contingencies were included in the Company's accompanying consolidated balance sheet. As of December 31, 2022, no loss contingencies were included in the Company's accompanying consolidated balance sheet.

On September 29, 2022, a jury in the U.S. District Court for the Central District of California (the "District Court") awarded Monster Energy Company ("MEC") approximately \$293 million in damages in its false advertising and trade secrets case (the "Jury Award") against Vital Pharmaceuticals, Inc. ("VPX"), the maker of Bang Energy. The jury found VPX and its former chief executive officer John H. Owoc to have falsely advertised the "Super Creatine" ingredient of Bang Energy and to have acted willfully and deliberately in violating the federal Lanham Act. The jury also found that VPX stole trade secrets and interfered with MEC's contracts over shelf space with certain key vendors. On April 12, 2023, the District Court granted Monster's motion for a permanent injunction which, among other things, enjoined VPX, Mr. Owoc, and others working in concert with them from falsely or deceptively claiming that BANG or any other beverages contain creatine or a form of creatine, requires them to remove all such advertising within 60 days, and required VPX and Mr. Owoc to issue corrective statements to consumers and non-consumer partners, including retailers and distributors.

In April 2022, MEC and Orange Bang, Inc. ("Orange Bang") filed a joint motion in a separate District Court action to confirm a final arbitration award against VPX that awarded MEC and Orange Bang \$175.0 million and a 5% royalty on all future sales of VPX's Bang Energy drink and other Bang-branded products as well as certain fees and costs (the "Arbitration Award"). The arbitration arose from a settlement agreement that VPX entered into in 2010 with Orange Bang, a family-owned beverage business. Pursuant to the terms of that agreement, VPX is only permitted to use the Bang mark on "creatine-based" products or on Bang products that are marketed and sold only in the vitamin and dietary supplement sections of stores. On September 29, 2022, the District Court entered final judgment confirming the Arbitration Award. On October 28, 2022, VPX filed a notice of appeal of the District Court's final judgment confirming the Arbitration award.

On October 10, 2022, VPX, along with certain of its domestic subsidiaries and affiliates, filed for protection under Chapter 11 of the Bankruptcy Code in the Southern District of Florida. Due to such ongoing proceedings, VPX's appeal of the District Court's final judgment confirming the Arbitration Award was stayed. While reserving all rights to appeal, VPX made its first royalty payment of \$3.6

million on February 14, 2023, which is for sales of Bang Energy drink and other Bang-branded products from October 10, 2022 through December 31, 2022. On May 25, 2023, VPX made an additional royalty payment in the amount of approximately \$3.7 million for sales of Bang-branded products from January 1, 2023 through March 31, 2023. Per ASC 450 "Contingencies", the Company will not recognize the royalty payments until they are realized or realizable.

On June 28, 2023, VPX and certain of its affiliates ("Bang Energy") entered into an Asset Purchase Agreement (the "APA") with the Company ("Buyer"), which among other things, provided for the Buyer's acquisition of substantially all of Bang Energy's assets. The transactions contemplated by the APA were approved by the U.S. Bankruptcy Court for the Southern District of Florida on July 14, 2023 and closed on July 31, 2023, at which time Monster was deemed to have allowed general unsecured claims in VPX's bankruptcy case relating to the Jury Award (subject to the potential modification of the Jury Award in light of pending post-verdict motions filed by MEC and VPX) and the Arbitration Award. Pursuant to the APA, Bang Energy and the Company have mutually released each other from all claims and liabilities related to the Jury Award and the Arbitration Award, except any claims that the Company might have against Mr. Owoc in relation to the Jury Award. Per ASC 450 "Contingencies", the Company will not recognize the allowed general unsecured claims, or the Jury Award as it relates to Mr. Owoc, until they are realized or realizable.

In June 2023, the Company entered into an agreement with Orange Bang regarding the Company's use and registration of certain Bang® trademarks and trade names, subject to the successful closure of the APA. Under this agreement, the Company will pay Orange Bang a one-time payment of approximately \$12.5 million and a 2.5% royalty on all future sales of products bearing the tradename Bang®.

The following weighted-average assumptions were used to estimate the fair value of options granted during:

	Three-Months Ended June 30,		Six-Months Ended June 30,	
	2023	2022	2023	2022
Dividend yield	0.0 %	0.0 %	0.0 %	0.0 %

Risk-free interest rate	3.7 %	3.0 %	3.7 %	2.1 %
Expected term	6.3 years	6.2 years	6.3 years	6.0 years

Expected Volatility: The Company uses historical volatility as it provides a reasonable estimate of the expected volatility. Historical volatility is based on the most recent volatility of the stock price over a period of time equivalent to the expected term of the option.

Risk-Free Interest Rate: The risk-free interest rate is based on the U.S. treasury zero-coupon yield curve in effect at the time of grant for the expected term of the option.

Expected Term: The Company's expected term represents the weighted-average period that the Company's stock options are expected to be outstanding. The expected term is based on the expected time to post-vesting exercise of options by employees. The Company uses historical exercise patterns of previously granted options to derive employee behavioral patterns used to forecast expected exercise patterns.

The following table summarizes the Company's activities with respect to its stock option plans as follows:

At June 30, 2023, there was \$115.6 million of total unrecognized compensation expense related to non-vested options granted to employees under the Company's stock-based compensation plans. That cost is expected to be recognized over a weighted-average period of 3.4 years.

Restricted Stock Units and Performance Share Units

The cost of stock-based compensation for restricted stock units and performance share units is measured based on the closing fair market value of the Company's common stock at the date of grant. In the event that the Company has the option and intent to settle a restricted stock unit or performance share unit in cash, the award is classified as a liability and revalued at each balance sheet date.

The following table summarizes the Company's activities with respect to non-vested restricted stock units and performance share units as follows:

	Number of Shares (in thousands)	Weighted Average Grant-Date Fair Value
Non-vested at January 1, 2023	2,026	\$ 36.27
Granted 01/01/23 - 03/31/23 ¹	523	\$ 48.49
Granted 04/01/23 - 06/30/23	22	\$ 59.70

Forfeited/cancelled	(11)	\$ 32.83
Non-vested at June 30, 2023	1,968	\$ 40.85

¹ The grant activity for performance share units is recorded based on the target performance level earning 100% of target performance share units. The actual number of performance share units earned could range from 0% to 200% of target depending on the achievement of pre-established performance goals.

The weighted-average grant-date fair value of restricted stock units and/or performance share units granted during the three-months ended June 30, 2023 and 2022 was \$59.17 and \$43.76 per share, respectively. The weighted-average grant-date fair value of restricted stock units and/or performance share units granted during the six-months ended June 30, 2023 and 2022 was \$48.93 and \$36.98 per share, respectively.

These awards are classified as liabilities and are valued based on the fair value of the award at the grant date and are remeasured at each reporting date until settlement, with compensation expense being recognized in proportion to the completed requisite service period up until date of settlement. At June 30, 2023, other share-based awards outstanding included grants that vest over three years payable in the first quarters of 2024, 2025 and 2026.

Such bottlers generally combine the concentrates and/or beverage bases with sweeteners, water and other ingredients to produce ready-to-drink packaged energy drinks. The ready-to-drink packaged energy drinks are then sold by such bottlers to other bottlers/distributors and to retail grocery and specialty chains, wholesalers, club stores, mass merchandisers, convenience and gas chains, foodservice customers, drug stores, value stores, e-commerce retailers and the military. To a lesser extent, the Strategic Brands segment generates net operating revenues by selling certain ready-to-drink packaged energy drinks to bottlers/distributors.

Generally, the Monster Energy® Drinks segment generates higher per case net operating revenues, but lower per case gross profit margin percentages than the Strategic Brands segment.

The Company's Alcohol Brands segment primarily generates operating revenues by selling kegged and ready-to-drink canned beers, hard seltzers and FMBs primarily to beer distributors in the United States.

Generally, the Alcohol Brands segment has lower gross profit margin percentages than the Monster Energy® Drinks segment.

Corporate and unallocated amounts that do not relate to a reportable segment have been allocated to "Corporate & Unallocated." No asset information, other than goodwill and other intangible assets, has been provided in the Company's reportable segments, as management does not measure or allocate such assets on a segment basis.

We therefore believe that the presentation of gross billings provides a useful measure of our operating performance. The use of gross billings is not a measure that is recognized under GAAP and should not be considered as an alternative to net sales, which is determined in accordance with GAAP, and should not be used alone as an indicator of operating performance in place of net sales. Additionally, gross billings may not be comparable to similarly titled measures used by other companies, as gross billings has been defined by our internal reporting practices. In addition, gross billings may not be realized in the form of cash receipts as promotional payments and allowances may be deducted from payments received from certain customers.

The following table reconciles the non-GAAP financial measure of gross billings with the most directly comparable GAAP financial measure of net sales:

(In thousands)	Three-Months Ended June 30,		Percentage Change	Six-Months Ended June 30,		Percentage Change

*** Although the expenditures described in this line item are determined in accordance with GAAP and meet GAAP requirements, the presentation thereof does not conform to GAAP presentation requirements. Additionally, our definition of promotional and other allowances may not be comparable to similar items presented by other companies. Promotional and other allowances for our energy drink products primarily include consideration given to our non-alcohol bottlers/distributors or retail customers including, but not limited to the following: (i) discounts granted off list prices to support price promotions to end-consumers by retailers; (ii) reimbursements given to our bottlers/distributors for agreed portions of their promotional spend with retailers, including slotting, shelf space allowances and other fees for both new and existing products; (iii) our agreed share of fees given to bottlers/distributors and/or directly to retailers for advertising, in-store marketing and promotional activities; (iv) our agreed share of slotting, shelf space allowances and other fees given directly to retailers, club stores and/or wholesalers; (v) incentives given to our bottlers/distributors and/or retailers for achieving or exceeding certain predetermined sales goals; (vi) discounted or free products; (vii) contractual fees given to our bottlers/distributors related to sales made by us direct to certain customers that fall within the bottlers'/distributors' sales territories; and (viii) certain commissions paid based on sales to our bottlers/distributors. The presentation of promotional and other allowances facilitates an evaluation of their impact on the determination of net sales and the spending levels incurred or correlated with such sales. Promotional and other allowances for our energy drink products constitute a material portion of our marketing activities. Our promotional allowance programs for our energy drink products with our numerous bottlers/distributors and/or retailers are executed through separate agreements in the ordinary course of business. These agreements generally provide for one or more of the arrangements described above and are of varying durations, ranging from one week to one year. Promotional and other allowances for our Alcohol Brands segment primarily include price promotions where permitted.

Sales

The table below discloses selected quarterly data regarding sales for the three- and six-months ended June 30, 2023 and 2022, respectively. Data from any one or more quarters or periods is not necessarily indicative of annual results or continuing trends.

Sales of our energy drinks are expressed in unit case volume. A "unit case" means a unit of measurement equal to 192 U.S. fluid ounces of finished beverage (24 eight-ounce servings). Unit case volume means the number of unit cases (or unit case equivalents) of finished products or concentrates as if converted into finished products sold by us.

Our quarterly results of operations reflect seasonal trends that are primarily the result of increased demand in the warmer months of the year. Beverage sales tend to be lower during the first and fourth quarters of each calendar year. However, our experience with our energy drink products suggests they are less seasonal than the seasonality expected from traditional beverages. In addition, our continued growth internationally may further reduce the impact of seasonality on our business. Quarterly fluctuations may also be affected by other factors including the introduction of new products, the opening of new markets where temperature fluctuations are more pronounced, the addition of new bottlers/distributors, changes in the sales mix of our products and changes in marketing and promotional expenses.

Liquidity and Capital Resources

Cash and cash equivalents, short-term and long-term investments. At June 30, 2023, we had \$1.87 billion in cash and cash equivalents, \$1.42 billion in short-term investments and \$62.2 million in long-term investments, including certificates of deposit, commercial paper, U.S. government agency securities, municipal securities, U.S. treasuries and corporate bonds. We maintain our investments for cash management purposes and not for purposes of speculation. Our risk management policies emphasize credit quality (primarily based on short-term ratings by nationally recognized statistical organizations) in selecting and maintaining our investments. We regularly assess market risk of our investments and believe our current policies and investment practices adequately limit those risks. However, certain of these investments are subject to general credit, liquidity, market and interest rate risks. These market risks associated with our investment portfolio may have an adverse effect on our future results of operations, liquidity and financial condition.

Of our \$1.87 billion of cash and cash equivalents held at June 30, 2023, \$774.3 million was held by our foreign subsidiaries. No short-term or long-term investments were held by our foreign subsidiaries at June 30, 2023.

We believe that cash available from operations, including our cash resources and access to credit, will be sufficient for our working capital needs, including purchase commitments for raw materials and inventory, increases in accounts receivable, payments of tax liabilities, expansion and development needs, purchases of capital assets, purchases of equipment, purchases of real property, acquisitions and purchases of shares of our common stock, through at least the next 12 months. Based on our current plans, at this time we estimate that capital expenditures (exclusive of common stock repurchases) are likely to be less than \$300 million through June 30, 2024. However, future business opportunities may cause a change in this estimate.

Purchases of inventories, increases in accounts receivable and other assets, acquisition of property and equipment (including real property, personal property, plant and manufacturing equipment, and coolers), leasehold improvements, advances for or the purchase of equipment for our bottlers, acquisition and maintenance of trademarks, payments of accounts payable, income taxes payable and purchases of our common stock are expected to remain our principal recurring use of cash.

Critical Accounting Policies and Estimates

Our consolidated financial statements are prepared in accordance with GAAP. GAAP requires us to make estimates and assumptions that affect the reported amounts in our consolidated financial statements. Critical accounting estimates are those that management believes are the most important to the portrayal of our financial condition and results and require the most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain and that have had, or are reasonably likely to have, a material impact on our financial condition or results of operations. Judgments and uncertainties may result in materially different amounts being reported under different conditions or using different assumptions. There have been no material changes to our critical accounting policies or estimates from the information provided in "Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Part II, Item 8 – Financial Statements and Supplementary Data – Note 1 – Organization and Summary of Significant Accounting Policies", included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 ("Form 10-K").

Recent Accounting Pronouncements

There have been no changes in recently issued or adopted accounting pronouncements that would materially impact the Company from those disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022.

Inflation

We believe inflation did not have a significant impact on our results of operations for the three- and six-months ended June 30, 2023.
