### Note 1: Background and Basis of Presentation

ON Semiconductor Corporation, together with its wholly and majority-owned subsidiaries, which operate under the onsemi<sup>TM</sup> brand ("onsemi," "we," "us," "our" or the "Company"), uses a thirteen-week fiscal quarter accounting period for the first three fiscal quarters of each year, with the first quarter of 2022 having ended on April 1, 2022 and each fiscal year ending on December 31. The quarters ended April 1, 2022 and April 2, 2021 contained 91 and 92 days, respectively. As of April 1, 2022, the Company was organized into the following three operating and reportable segments: the Power Solutions Group ("PSG"), the Advanced Solutions Group ("ASG") and the Intelligent Sensing Group ("ISG").

The accompanying unaudited financial statements as of and for the quarter ended April 1, 2022 have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP"). Accordingly, the unaudited financial statements do not include all of the information and footnotes required by GAAP for audited financial statements. The balance sheet as of December 31, 2021 was derived from the Company's audited financial statements, but does not include all disclosures required by GAAP for audited financial statements. In the opinion of the Company's management, the interim information includes all adjustments, which include normal recurring adjustments, necessary for a fair statement of the results for the interim periods. The footnote disclosures related to the interim financial information included herein are also unaudited. Such financial information should be read in conjunction with the consolidated financial statements and related notes thereto for the year ended December 31, 2021 included in the Company's Annual Report on Form 10-K for the year ended December 31, 2021, which was filed with the SEC on February 14, 2022 (the "2021 Form 10-K").

### Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses during the reporting period. Management evaluates these estimates and judgments on an ongoing basis and bases its estimates on experience, current and expected future conditions, third-party evaluations and various other assumptions that management believes are reasonable under the circumstances. Significant estimates have been used by management in conjunction with the following: (i) future payouts for customer incentives and amounts subject to allowances and returns; (ii) valuation and obsolescence relating to inventories; and (iii) measurement of valuation allowances against deferred tax assets and evaluations of uncertain tax positions. Additionally, during periods where it becomes applicable, significant estimates will be used by management in determining the future cash flows used to assess and test for impairment of long-lived assets and goodwill and in assumptions used in connection with business combinations. Actual results may differ from the estimates and assumptions used in the consolidated financial statements.

### Note 2: Revenue and Segment Information

The Company is organized into three operating and reportable segments consisting of PSG ASG and ISG. These segments represent the Company's view of the business, and its gross profit is used to evaluate the performance of the Company's segments, the progress of major initiatives and the allocation of resources. Gross profit is exclusive of the amortization of acquisition-related intangible assets.

During the quarter ended April 1, 2022, the Company received capacity payments and deposits of \$5.5 million, which was recorded as a contract liability, of which an immaterial amount was recognized as revenue for satisfying the associated performance obligations. The remaining balances amounting to \$27.6 million and \$28.9 million were recorded as current liabilities and other long-term liabilities, respectively. Contract assets were immaterial as of April 1, 2022. There were no corresponding amounts for the quarter ended April 2, 2021.

A significant portion of the Company's orders are firm commitments that are non-cancellable, including certain orders or contracts with a duration of less than one year. Certain of the Company's customer contracts are multi-year agreements that include firmly committed amounts for which the remaining performance obligations as of April 1, 2022 were approximately \$8.6 billion (excluding the remaining performance obligations for contracts having a duration of one year or less). The Company expects to recognize approximately 30% of this amount as revenue during the next twelve months upon shipment of products under these contracts. Total sales estimates are based on negotiated contract prices and demand quantities, and could be influenced by manufacturing and supply chain constraints, among other things. Accordingly, the amount represented by remaining performance obligations may not be indicative of the actual revenue recognized for future periods.

Revenue and gross profit for the Company's operating and reportable segments are as follows (in millions):

		PSG	ASG	ISG	Total
For the quarter ended April 1, 2022:	'				
Revenue from external customers	\$	986.7	\$ 689.3	\$ 269.0	\$ 1,945.0
Gross profit	\$	474.7	\$ 366.7	\$ 119.9	\$ 961.3
For the quarter ended April 2, 2021:					
Revenue from external customers	\$	747.0	\$ 531.5	\$ 203.2	\$ 1,481.7
Gross profit	\$	246.5	\$ 206.8	\$ 67.9	\$ 521.2

The Company had one customer, a distributor, whose revenue accounted for approximately 12.4% and 10.6% of the Company's total revenue for the quarters ended April 1, 2022 and April 2, 2021, respectively.

Revenue for the Company's operating and reportable segments disaggregated into geographic locations based on sales billed from the respective country and sales channels are as follows (in millions):

	Quarter Ended April 1, 2022							
	PSG		ASG		ISG		Total	
Geographic Location								
Singapore	\$	280.5	\$	233.8	\$	41.4	\$	555.7
Hong Kong		303.1		173.9		52.6		529.6

United States		144.9		92.3		74.5		311.7
Other		71.3		82.7		48.5		202.5
Total	\$	986.7	\$	689.3	\$	269.0	\$	1,945.0
Calar Channal								
Sales Channel								
Distributors	\$	633.9	\$	356.9	\$	150.6	\$	1,141.4
Direct Customers		352.8		332.4		118.4		803.6
Total	\$	986.7	\$	689.3	\$	269.0	\$	1,945.0

	Quarter Ended April 2, 2021							
	 PSG		ASG		ISG		Total	
Geographic Location								
Singapore	\$ 274.5	\$	201.7	\$	32.8	\$	509.0	
Hong Kong	196.1		100.5		45.6		342.2	
United Kingdom	142.7		82.6		43.6		268.9	
United States	75.3		70.2		38.8		184.3	
Other	58.4		76.5		42.4		177.3	
Total	\$ 747.0	\$	531.5	\$	203.2	\$	1,481.7	
Sales Channel								
Distributors	\$ 523.9	\$	288.9	\$	121.2	\$	934.0	
Direct Customers	223.1		242.6		82.0		547.7	
Total	\$ 747.0	\$	531.5	\$	203.2	\$	1,481.7	

The Company operates in various geographic locations. Sales to external customers have little correlation with the location of manufacturers. It is, therefore, not meaningful to present operating profit by geographical location. The Company does not discretely allocate assets to its operating segments, nor does management evaluate operating segments using discrete asset information. The Company's consolidated assets are not specifically ascribed to its individual reportable segments. Rather, assets used in operations are generally shared across the Company's operating and reportable segments.

Property, plant and equipment, net by geographic location, is summarized as follows (in millions):

		A	s of		
	Apri	April 1, 2022		er 31, 2021	
United States	\$	752.4	\$	767.1	
South Korea		573.0		492.8

China		214.0		216.8	
Japan		188.1		198.6	
Malaysia		172.8		175.3	
Other		107.7		117.1	
Total	\$	2,559.4	\$	2,524.3	

### **Note 3: Recent Accounting Pronouncements**

### Adopted:

### ASU 2020-06 - Accounting for Convertible Instruments and Contracts in an Entity's Own Equity ("ASU 2020-06")

In August 2020, the FASB issued ASU 2020-06, which simplifies the guidance on the issuer's accounting for convertible debt instruments by removing the separation models for (1) convertible debt with a cash conversion feature and (2) convertible instruments with a beneficial conversion feature. Also, ASU 2020-06 requires the application of the if-converted method for the purpose of calculating diluted earnings per share, and the treasury stock method will be no longer available for instruments that fall under this category. The Company adopted ASU 2020-06 as of January 1, 2022 using the modified retrospective method, and recorded adjustments to reduce additional paid-in capital by \$129.1 million and increase opening retained earnings by \$27.1 million to reflect the cumulative effect of the adoption. See Note 7: "Long-Term Debt" for further information.

### Pending adoption:

### ASU 2021-10 - Government Assistance (Topic 832) - Disclosures by Business Entities about Government Assistance ("ASU 2021-10")

In November 2021, the FASB issued ASU 2021-10, which requires business entities to make annual disclosures about the nature of the certain government assistance received and the related accounting policy used to account for such assistance along with certain other disclosures related to the transactions. If an entity omits any required disclosures because it is legally prohibited, it must disclose that fact. ASU 2021-10 will be applicable to the 2022 annual financial statements, and the Company is currently evaluating the applicable disclosures.

### Note 4: Acquisition and Divestitures

### Acquisition:

The Company finalized its determination relating to the fair value of assets acquired and liabilities assumed from GTAT. The final allocation of purchase price, which did not change from the preliminary allocation disclosed in the 2021 Form 10-K is as follows (in millions):

	Purchase Alloca	
Cash and cash equivalents	\$	8.2
Inventory and other current assets		10.0
Property, plant and equipment		31.9
Goodwill		274.8
Intangible assets - Developed Technology		130.0
Deferred tax assets		13.4
Other non-current assets		7.4
Total assets acquired		475.7
Current liabilities		5.8
Other long-term liabilities		35.0
Total liabilities assumed		40.8
Net assets acquired/purchase price	\$	434.9

All assumptions and disclosures remained unchanged from the amounts included in the 2021 Form 10-K.

Divestitures:

### Belgium fab

In February 2022, the Company divested its Oudenaarde, Belgium site to BelGaN Group BV, which primarily included the assets, liabilities and relevant employee group related to the six-inch front-end wafer manufacturing facility for an aggregate consideration of \$19.9 million and recognized a nominal gain after offsetting the carrying values of the assets disposed and liabilities transferred.

### South Portland, Maine fab

During the first quarter of 2022, the Company entered into an asset purchase agreement to divest its South Portland, Maine site to Diodes Incorporated, which includes the net assets and relevant employee group related to the eight-inch front-end wafer manufacturing facility. The transaction is expected to close during the second quarter of 2022 and result in a nominal gain or loss, and the corresponding assets have been classified as held for sale within other current assets.

### Note 5: Restructuring, Asset Impairments and Other, Net

Details of restructuring, asset impairments and other charges, net are as follows (in millions):

2,	1	0 ,	Restructuring	Asset Impairments	Other	Total
Quarter ended April 1, 2022			Testi uctui ing	7135ct Impair Incits	Other	Total
Other		\$	(0.5)	\$ 4.0	\$ (16.5)	\$ (13.0)
Total		\$	(0.5)	\$ 4.0	\$ (16.5)	\$ (13.0)

A summary of changes in accrued restructuring balance is as follows (in millions):

	As of							As of
	Dec	ember 31, 2021		Charges		Usage		April 1, 2022
Employee separation charges	\$	10.8	\$	(0.5)	\$	(4.8)	\$	5.5
Total	\$	10.8	\$	(0.5)	\$	(4.8)	\$	5.5

The Other category primarily includes the gain from the sale of an office building. There were no new restructuring programs implemented and the activity during the quarter ended April 1, 2022 represented payments to employees whose employments were terminated during 2021.

The Company continues to evaluate employee positions and locations for potential efficiencies, and may incur additional charges in the future.

### Note 6: Balance Sheet Information and Other

### Goodwill

There was an insignificant change in the balance of goodwill from December 31, 2021 to April 1, 2022 relating to the divestiture of a business.

Goodwill is tested for impairment annually on the first day of the fourth quarter or more frequently if events or changes in circumstances (each, a "triggering event") would more likely than not reduce the carrying value of goodwill below its fair value. Management did not identify any triggering events during the quarter ended April 1, 2022 that would require an interim impairment analysis.

#### Inventory

Details of Inventory included in the Company's Consolidated Balance Sheets are as follows (in millions):

	$\mathbf{A}$	s of
	April 1, 2022	December 31, 2021
Inventories:		
Raw materials	\$ 193.5	\$ 174.2
Work in process	971.5	888.9
Finished goods	331.0	316.4
	\$ 1,496.0	\$ 1,379.5

### Other current assets

Assets classified as held-for-sale, consisting of properties and certain other assets, are required to be recorded at the lower of carrying value or fair value less costs to sell. Fixed assets of approximately \$70 million have been classified as held-for-sale within other current assets as of April 1, 2022.

### Defined Benefit Plans

The Company recognizes the aggregate amount of all over-funded plans as assets and the aggregate amount of all underfunded plans as liabilities in its financial statements. As of April 1, 2022, the net assets for the over-funded plans totaled \$14.3 million. The total accrued pension liability for underfunded plans was \$112.6 million, of which the current portion of \$0.2 million was classified as accrued expenses and other current liabilities. As of December 31, 2021, the net funded status for all the plans was a liability of \$103.9 million, of which the current portion of \$0.2 million was classified as accrued expenses and other current liabilities.

The components of the net periodic pension expense were as follows (in millions):

	Quar	ers Ended	
	April 1, 2022	April 2, 2021	
Service cost	\$ 2.2	\$ 3.1	
Interest cost	1.1	1.1	
Expected return on plan assets	(1.2)	(1.7)	
Curtailment loss		1.9	
Total net periodic pension cost	\$ 2.1	\$ 4.4	

### Leases

Operating lease arrangements are comprised primarily of real estate and equipment agreements. The components of lease expense were as follows (in millions):

	Quarters Enged			
	 April 1, 2022			
Operating lease	\$ 11.2	\$	9.9	
Variable lease	1.6		1.0	
Short-term lease	0.4		0.7	
Total lease expense	\$ 13.2	\$	11.6	

The lease liabilities recognized in the Consolidated Balance Sheets are as follows (in millions):

		As of		
	Apr	April 1, 2022		ber 31, 2021
Operating lease liabilities included in:		,		
Accrued expenses and other current liabilities	\$	35.1	\$	32.5
Other long-term liabilities		137.9		142.4
Total	\$	173.0	\$	174.9
Operating ROU assets included in:		,		
Other assets	\$	169.7	\$	170.1
Financing lease liabilities included in:				
Accrued expenses and other current liabilities	\$	12.7	\$	12.7
Other long-term liabilities		10.2		10.2
Total	\$	22.9	\$	22.9
Financing ROU assets included in:				
Other assets	\$	21.9	\$	22.3

As of April 1, 2022, the weighted-average remaining lease-terms were 8.3 years and 19.8 years and the weighted-average discount rates were 4.2% and 6.0% for operating and financing leases, respectively.

### Supplemental Disclosure of Cash Flow Information

Certain of the Company's cash and non-cash activities were as follows (in millions):

	Qua	rters Ended
	April 1, 2022	April 2, 2021
Non-cash investing activities:		
Capital expenditures in accounts payable and other long-term liabilities	\$ 225	180.9
Operating ROU assets obtained in exchange of lease liabilities	10	7.1
Cash paid for:		
Interest expense	\$ 24	.0 \$ 31.4
Income taxes	15	20.9
Operating lease payments in operating cash flows	11	.0 10.3

Reconciliation of the captions in the Consolidated Balance Sheets to the Consolidated Statements of Cash Flows (in millions)

	As of				
	April 1, 2022	December 31, 2021	April 2, 2021	December 31, 2020	
Consolidated Balance Sheets:					
Cash and cash equivalents	\$ 1,645.1	\$ 1,352.6	\$ 1,042.5	\$ 1,080.7	
Restricted cash (included in other current assets)	18.8	20.1	1.4	0.8	
Restricted cash (included in other non-current assets)	5.0	5.0	_		
Cash, cash equivalents and restricted cash in Consolidated Statements of Cash Flows	\$ 1,668.9	\$ 1,377.7	\$ 1,043.9	\$ 1,081.5	

As of April 1, 2022, \$15.0 million of the restricted cash balance was held in escrow relating to the acquisition of GTAT and will be released to the former stockholders of GTAT upon satisfaction of certain outstanding items contained in the acquisition agreement.

### Note 7: Long-Term Debt

The Company's long-term debt consists of the following (annualized interest rates, dollars in millions):

		As	of
	Apr	il 1, 2022	December 31, 2021
Amended Credit Agreement:			
Term Loan "B" Facility due 2026, interest payable monthly at 2.46% and 2.10%, respectively		1,594.1	1,598.2
0% Notes due 2027		805.0	805.0
3.875% Notes due 2028 (1)		700.0	700.0
1.625% Notes due 2023 (2)		155.1	155.1
Gross long-term debt, including current maturities	\$	3,254.2	\$ 3,258.3
Less: Debt discount (3)		(12.6)	(149.0)
Less: Debt issuance costs (4)		(35.8)	(34.7)
Net long-term debt, including current maturities	\$	3,205.8	\$ 3,074.6
Less: Current maturities		(170.4)	(160.7)
Net long-term debt	\$	3,035.4	\$ 2,913.9

- Interest is payable on March 1 and September 1 of each year at 3.875% annually.
   Interest is payable on April 15 and October 15 of each year at 1.625% annually.

- (3) Debt discount of \$7.2 million and \$7.5 million for the Term Loan "B" Facility and \$5.4 million and \$5.8 million for the 3.875% Notes, in each case as of April 1, 2022 and December 31, 2021, respectively. Debt discount of \$126.1 million for the 0% Notes and \$9.6 million for the 1.625% Notes, in each case as of December 31, 2021. No debt discount as of April 1, 2022 for 0% Notes and 1.625% Notes due to the adoption of ASU 2020-06.
- (4) Debt issuance costs of \$16.8 million and \$17.7 million for the Term Loan "B" Facility, \$16.3 million and \$14.1 million for the 0% Notes, \$1.9 million and \$2.0 million for the 3.875% Notes and \$0.8 million and \$0.9 million for the 1.625% Notes, in each case as of April 1, 2022 and December 31, 2021, respectively.

Expected maturities of gross long-term debt (including current portion - see section regarding 1.625% Notes below) as of April 1, 2022 were as follows (in millions):

Period	F	Expected Maturities
Remainder of 2022	\$	167.4
2023		16.3
2024		16.3
2025		16.3
2026		1,532.9
Thereafter		1,505.0
Total	\$	3,254.2

The Company was in compliance with its covenants under all debt agreements as of April 1, 2022.

### Adoption of ASU 2020-06

As described in Note 3: Recent Accounting Pronouncements, the Company adopted ASU 2020-06 using a modified retrospective method and reduced additional paid-in capital by \$129.1 million and increased opening retained earnings by \$27.1 million to reflect the cumulative effect of adoption as of January 1, 2022. The application of the if-converted method to determine the net income for diluted earnings and diluted weighted-average shares of common stock outstanding did not have a meaningful impact on the diluted net income per share of common stock under the treasury stock method previously applied.

### 1.625% Notes due 2023

The remaining outstanding principal amount of the 1.625% Notes, amounting to \$155.1 million, net of unamortized issuance costs continues to be classified as a current portion of long-term debt as of April 1, 2022. Pursuant to the indenture governing the 1.625% Notes, because the last reported sale price of the Company's common stock for at least 20 trading days during the period of 30 consecutive trading days ending on March 31, 2022 was greater than or equal to \$26.94 (130% of the conversion price) on each applicable trading day, the holders have the right to surrender any portion of their 1.625% Notes (in minimum denominations of \$1,000 in principal amount or an integral multiple thereof) for conversion during the calendar quarter ending June 30, 2022, and only during such calendar quarter.

### Note 8: Earnings Per Share and Equity

#### Earnings Per Share

Net income per share of common stock for calculating basic and diluted earnings per share is calculated as follows (in millions, except per share data):

		Quarters Ended		
	Apr	April 1, 2022		2,2021
Net income for basic earnings per share of common stock	\$	530.2	\$	89.9
Add: Interest on 1.625% Notes		0.5		_
Net income for diluted earnings per share of common stock	\$	530.7	\$	89.9
Basic weighted-average shares of common stock outstanding		433.3		413.4
Dilutive effect of share-based awards		2.4		2.7
Dilutive effect of convertible notes and warrants		13.2		29.3
Diluted weighted-average shares of common stock outstanding		448.9		445.4
Net income per share of common stock:				
Basic	\$	1.22	\$	0.22
Diluted	\$	1.18	\$	0.20

Basic income per share of common stock is computed by dividing net income for basic earnings by the weighted-average number of shares of common stock outstanding during the period. To calculate the diluted weighted-average shares of common stock outstanding, treasury stock method has been applied to calculate the number of incremental shares from the assumed issuance of shares relating to RSUs. The excluded number of anti-dilutive share-based awards was approximately 0.2 million and 0.7 million for the quarters ended April 1, 2022 and April 2, 2021, respectively.

The dilutive impacts related to the 0% Notes and 1.625% Notes have been calculated using the if-converted method. While the 0% Notes are repayable in cash up to the par value and in cash or shares of common stock for the excess over par value, the 1.625% Notes are repayable in cash or shares of common stock for their entire value. Prior to conversion, the convertible note hedges are not considered for purposes of the earnings per share calculations, as their effect would be anti-dilutive. Upon conversion, the convertible note hedges are expected to offset the dilutive effect of the 0% Notes and 1.625% Notes when the stock price is above \$52.97 and \$20.72 per share, respectively.

The dilutive impact of the warrants issued concurrently with the issuance of the 0% Notes and 1.625% Notes with exercise prices of \$74.34 and \$30.70, respectively, has been included in the calculation of diluted weighted-average common shares outstanding, if applicable.

### Equity

Share Repurchase Program

Under the Company's share repurchase program announced on November 15, 2018 (the "Share Repurchase Program"), the Company may repurchase up to \$1.5 billion (exclusive of fees, commissions and other expenses) of the Company's common stock from December 1, 2018 through December 31, 2022. There were no repurchases during the quarters ended April 1, 2022 and April 2, 2021 under the Share Repurchase Program As of April 1, 2022, the authorized amount remaining under the Share Repurchase Program was \$1,295.8 million.

Shares for Restricted Stock Units Tax Withholding

The amounts remitted for employee withholding taxes during the quarters ended April 1, 2022 and April 2, 2021 were \$58.8 million and \$28.5 million, respectively, for which the Company withheld approximately 1.0 million and 0.7 million shares of

common stock, respectively, that were underlying the RSUs that vested. None of these shares had been reissued or retired as of April 1, 2022, but may be reissued or retired in the future. These deemed repurchases in connection with tax withholding upon vesting were not made under the Share Repurchase Program, and the amounts spent in connection with such deemed repurchases did not reduce the authorized amount remaining under the Share Repurchase Program.

Non-Controlling Interest in Leshan-Phoenix Semiconductor Company Limited ("Leshan")

The results of Leshan have been consolidated in the Company's financial statements. As of December 31, 2021, the non-controlling interest balance was \$19.0 million and, along with the \$0.8 million share of the earnings for the quarter ended April 1, 2022, increased to \$19.8 million as of April 1, 2022.

### Note 9: Share-Based Compensation

Total share-based compensation expense related to the Company's RSUs, stock grant awards and the ESPP was recorded within the Consolidated Statements of Operations and Comprehensive Income as follows (in millions):

	Quarters Ended		
	April 1, 2022	April 2, 2021	
Cost of revenue	\$ 2.6	\$ 3.3	
Research and development	4.4	5.7	
Selling and marketing	3.8	4.3	
General and administrative	11.7	9.0	
Share-based compensation expense	\$ 22.5	\$ 22.3	
Income tax benefit	(4.7)	(4.7)	
Share-based compensation expense, net of taxes	\$ 17.8	\$ 17.6	

As of April 1, 2022, total unrecognized expected share-based compensation expense, net of estimated forfeitures, related to non-vested RSUs with service, performance and market conditions was \$157.6 million, which is expected to be recognized over a weighted-average period of 1.8 years. Upon vesting of RSUs, stock grant awards or completion of a purchase under the ESPP, the Company issues new shares of common stock. The annualized pre-vesting forfeiture rate for RSUs was estimated to be 6% for the quarter ended April 1, 2022 and 5% for the quarter ended April 2, 2021.

### Shares Available

As of April 1, 2022 and December 31, 2021, there was an aggregate of 39.9 million and 42.2 million shares of common stock, respectively, available for grant under the Amended and Restated SIP.

### Restricted Stock Units

RSUs generally vest ratably over three years for awards with service conditions and over two or three years for awards with performance or market conditions, or a combination thereof, and are settled in shares of the Company's common stock upon vesting. A summary of the RSU transactions for the quarter ended April 1, 2022 is as follows (in millions, except per share data):

	Number of Shares	Weighted-Average Grant Date Fair Value Per Share
Non-vested RSUs at December 31, 2021	6.2	\$ 28.60
Granted	1.5	60.66
Achieved	0.2	41.35
Released	(2.9)	25.19
Forfeited	(0.2)	32.66
Non-vested RSUs at April 1, 2022	4.8	40.83

### Note 10: Commitments and Contingencies

#### **Environmental Contingencies**

There are no new material environmental contingencies subsequent to the filing of the 2021 Form 10-K.

### Financing Contingencies

In the ordinary course of business, the Company provides standby letters of credit or other guarantee instruments to certain parties initiated by either the Company or its subsidiaries, as required for transactions, including, but not limited to, material purchase commitments, agreements to mitigate collection risk, leases, utilities or customs guarantees. As of April 1, 2022, the Company's Revolving Credit Facility included \$15.0 million available for the issuance of letters of credit. There were \$0.9 million in letters of credit outstanding under the Revolving Credit Facility as of April 1, 2022, which reduced the Company's borrowing capacity. As of April 1, 2022, the Company also had outstanding guarantees and letters of credit outside of its Revolving Credit Facility totaling \$13.4 million.

As part of obtaining financing in the ordinary course of business, the Company issued guarantees related to certain of its subsidiaries, which totaled \$0.9 million as of April 1, 2022. Based on historical experience and information currently available, the Company believes that it will not be required to make payments under the standby letters of credit or guarantee arrangements for the foreseeable future.

### **Indemnification Contingencies**

There are no new material indemnification contingencies subsequent to the filing of the 2021 Form 10-K.

### Legal Matters

The Company is currently involved in a variety of legal matters that arise in the ordinary course of business. Based on information currently available, the Company is not involved in any pending or threatened legal proceedings that it believes could reasonably be expected to have a material adverse effect on its financial condition, results of operations or liquidity. The litigation process is inherently uncertain, and the Company cannot guarantee that the outcome of any litigation matter will be favorable to the Company.

### **Intellectual Property Matters**

The Company faces risk of exposure from claims of infringement of the IP rights of others. In the ordinary course of business, the Company receives letters asserting that the Company's products or components breach another party's rights. Such letters may request royalty payments from the Company, that the Company cease and desist using certain IP or other remedies.

### Note 11: Fair Value Measurements

### Fair Value of Financial Instruments

The Company invests portions of its excess cash in different marketable securities, which are classified as available-for-sale. The following table summarizes the Company's financial assets and liabilities, excluding pension assets, disaggregated by the security type, measured at fair value on a recurring basis (in millions):

As of April 1, 2022 Fair Value Level Unrealized Amortized Cost Unrealized gains Description losses Fair value Level 1 Level 2 Level 3 Assets: Cash and cash equivalents: Demand and time deposits \$ 19.6 \$ 19.6 \$ 19.6 \$ Money market funds 0.7 0.7 0.7 Other current assets: Corporate bonds 22.3 \$ 22.3 22.3 \$ Certificate of deposit 3.0 3.0 3.0 3.8 Commercial paper 6.8 3.0 6.8 US Treasury bonds 0.7 0.7 0.7 Other assets: Corporate bonds 14.2 14.2 14.2 US Treasury bonds 1.2 1.2 1.2

The investments included in other assets have maturity dates ranging between one and five years.

As of December 31, 2021							Fair Value Level					
Description	Amort	ized Cost	Unrealized g	ains	Unrealized losses	Fair value		Level 1		Level 2	Le	vel 3
Assets:												
Cash and cash equivalents:												
Demand and time deposits	\$	19.5	\$	\$	_	\$ 19.5	5 \$	19.5	\$	_	\$	
Money market funds		0.7		_	_	0.7	7	0.7		_		_
Corporate bonds		1.6		_	_	1.6	5	_		1.6		_
Commercial paper		2.0		_	_	2.0	)			2.0		_
Other current assets:												
Corporate bonds	\$	16.0	\$	\$	_	\$ 16.0	\$	_	\$	16.0	\$	_
Certificate of deposit		1.9		_	_	1.9	)	_		1.9		_

US Treasury bonds		1.6		_	_	1.6	5	_		1.6		_

### Other

The carrying amounts of other current assets and liabilities, such as accounts receivable and accounts payable, approximate fair value based on the short-term nature of these instruments.

Fair Value of Long-Term Debt, including Current Portion

The carrying amounts and fair values of the Company's long-termborrowings were as follows (in millions):

	As of							
	 April 1, 2022				December 31, 2021			
	 Carrying Amount		Fair Value		Carrying Amount		Fair Value	
Long-term debt, including current portion (1)								
0% Notes	\$ 788.7	\$	1,077.7	\$	664.8	\$	1,183.1	
1.625% Notes	154.3		474.0		144.6		513.6	
Other long-term debt	2,262.7		2,137.8		2,265.2		2,245.5	

<sup>(1)</sup> Carrying amounts shown are net of debt discount, if applicable, and debt issuance costs.

The fair values of the 3.875% Notes, 1.625% Notes and 0% Notes were estimated based on market prices in active markets (Level 1). The fair value of the Term Loan "B" Facility was estimated based on discounting the remaining principal and interest payments using current market rates for similar debt (Level 2).

### Note 12: Financial Instruments

### Foreign Currencies

As a multinational business, the Company engages in transactions that are denominated in a variety of currencies. When appropriate, the Company uses forward foreign currency contracts to reduce its overall exposure to the effects of currency fluctuations on its results of operations and cash flows. The Company's policy prohibits trading in currencies for which there are no underlying exposures and entering into trades for any currency to intentionally increase the underlying exposure. The Company primarily hedges existing assets and liabilities associated with transactions currently on its balance sheet, which are undesignated hedges for accounting purposes.

As of April 1, 2022 and December 31, 2021, the Company had net outstanding foreign exchange contracts with notional amounts of \$236.7 million and \$288.3 million, respectively. Such contracts were obtained through financial institutions and were scheduled to mature within one to three months from the time of purchase. Management believes that these financial instruments should not subject the Company to increased risks from foreign exchange movements because gains and losses on these contracts should offset losses and gains on the underlying assets, liabilities and transactions to which they are related.

The following summarizes the Company's net foreign exchange positions in U.S. Dollars (in millions):

		As of								
		April	1,2022	December	r 31, 2021					
	Bu	ıy (Sell)	Notional Amount	Buy (Sell)	Notional Amount					
Philippine Peso		56.9	56.9	67.1	67.1					
Japanese Yen		51.0	51.0	33.2	33.2					
Korean Won		38.9	38.9	44.1	44.1					
Czech Koruna		24.7	24.7	15.0	15.0					
Euro		12.9	12.9	65.9	65.9					
Other Currencies - Buy		46.6	46.6	58.7	58.7					
Other Currencies - Sell		(5.7)	5.7	(4.3)	4.3					
	\$	225.3	\$ 236.7	\$ 279.7	\$ 288.3					

Amounts receivable or payable under the contracts are included in other current assets or accrued expenses and other current liabilities in the accompanying Consolidated Balance Sheets. During the quarters ended April 1, 2022 and April 2, 2021, realized and unrealized foreign currency transactions totaled a gain of \$1.9 million and a gain of \$4.0 million, respectively. The realized and unrealized foreign currency transactions are included in other income (expense) in the Company's Consolidated Statements of Operations and Comprehensive Income.

### Cash Flow Hedges

All derivatives are recognized on the Company's Consolidated Balance Sheets at their fair value and classified based on the applicable instrument's maturity date.

#### Foreign Currency Risk

The purpose of the foreign currency hedging activities is to protect the Company from the risk that the eventual cash flows resulting from transactions in foreign currencies will be adversely affected by changes in exchange rates. The Company enters into forward contracts that are designated as a foreign currency cash flow hedge of a forecasted payment denominated in a currency other than U.S. Dollars. For the quarters ended April 1, 2022 and April 2, 2021, the Company did not have outstanding derivatives for its foreign currency exposure designated as cash flow hedges.

#### Interest Rate Risk

The Company uses interest rate swap contracts to mitigate its exposure to interest rate fluctuations. During the quarter ended April 1, 2022, the Company had interest rate swap agreements for notional amounts totaling \$750.0 million. The Company did not identify any ineffectiveness with respect to the notional amounts of the interest rate swap contracts outstanding as of April 1, 2022 and April 2, 2021.

### Other

As of April 1, 2022, the Company had no outstanding commodity derivatives, currency swaps or options relating to either its debt instruments or investments. The Company does not hedge the value of its equity investments in its subsidiaries or affiliated companies. The Company is exposed to credit-related losses if counterparties to hedge contracts fail to perform their obligations. As of April 1, 2022, the counterparties to the Company's hedge contracts were held at financial institutions that the Company believes to be highly-rated, and no credit-related losses are anticipated.

#### Note 13: Income Taxes

The Company recognizes interest and penalties related to uncertain tax positions in tax expense on the Company's Consolidated Statements of Operations and Comprehensive Income. The Company had approximately \$1.5 million and \$3.0 million of net interest and penalties accrued as of April 1, 2022 and April 2, 2021, respectively. It is reasonably possible that \$64.2 million of its uncertain tax positions will be reduced in the next 12 months due to settlement with tax authorities or expiration of the applicable statute of limitations.

The Company maintains a partial valuation allowance on its U.S. state deferred tax assets and a valuation allowance on foreign net operating losses and tax credits in certain foreign jurisdictions, a substantial portion of which relate to Japan and Hong Kong net operating losses, which are projected to expire prior to utilization.

The Company is currently under IRS examination for the 2017 tax year. Tax years prior to 2017 are generally not subject to examination by the IRS. For state tax returns, the Company is generally not subject to income tax examinations for tax years prior to 2017. The Company is also subject to routine examinations by various foreign tax jurisdictions in which it operates. With respect to jurisdictions outside the United States, the Company is generally not subject to examination for tax years prior to 2011. The Company believes that adequate provisions have been made for any adjustments that may result from tax examinations. However, the outcome of tax audits cannot be predicted with certainty. If any issues addressed in the Company's tax audits are resolved in a manner not consistent with the Company's expectations, the Company could be required to adjust its provision for income taxes in the period such resolution occurs.

### Note 14: Changes in Accumulated Other Comprehensive Loss

Amounts comprising the Company's accumulated other comprehensive loss and reclassifications are as follows (in millions):

	Currency Translation Adjustments	Effects of Cash Flow Hedges and Other Adjustments	Total
Balance as of December 31, 2021	\$ (44.4)	\$ 3.8	\$ (40.6)
Other comprehensive income (loss) prior to reclassifications	(2.4)	17.3	14.9
Amounts reclassified from accumulated other comprehensive loss	_	(0.7)	(0.7)
Net current period other comprehensive income (loss) (1)	(2.4)	16.6	14.2
Balance as of April 1, 2022	\$ (46.8)	\$ 20.4	\$ (26.4)

(1) Effects of cash flow hedges are net of tax expense of \$5.1 million for the quarter ended April 1, 2022.

Amounts reclassified from accumulated other comprehensive loss to the specific caption within Consolidated Statements of Operations and Comprehensive Income were as follows:

		Quartei	rs E		
	A	pril 1, 2022		April 2, 2021	To caption

Total reclassifications	\$	0.7	\$	4.6	

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion in conjunction with our audited historical consolidated financial statements, which are included in the 2021 Form 10-K and our unaudited consolidated financial statements for the fiscal quarter ended April 1, 2022, which are included elsewhere in this Form 10-Q. This Management's Discussion and Analysis of Financial Condition and Results of Operations contains statements that are forward-looking. These statements are based on current expectations and assumptions that are subject to risks, uncertainties and other factors. Actual results could differ materially because of the factors discussed below or elsewhere in this Form 10-Q. See Part II, Item 1A. "Risk Factors" of this Form 10-Q and Part I, Item 1A. "Risk Factors" of the 2021 Form 10-K.

### **Executive Overview**

onsemi Overview

We provide industry leading intelligent power and sensing solutions to help our customers solve the most challenging problems and create cutting edge products for a better future. Our intelligent power technologies enable the electrification of the automotive industry that allows for lighter and longer-range electric vehicles, empowers efficient fast-charging systems and propels sustainable energy for the highest efficiency solar strings, industrial power and storage systems. Our intelligent sensing technologies support the next-generation industry, allowing for smarter factories and buildings while also enhancing the automotive mobility experience with imaging and depth sensing that make advanced vehicle safety and automated driving systems possible.

onsemi's intelligent power allows our customers to exceed range targets with lower weight and reduce system cost through efficiency. With our sensing integration, we believe onsemi's intelligent power solutions achieve higher efficiencies compared to our peers and allow lower temperature operation, reducing cooling requirements, saving costs and minimizing weight while delivering the required power with less die per module and achieving higher range for a given battery capacity, onsemi's intelligent sensing solutions offer proprietary features in smaller packages that support customers' use cases. We believe our intelligent sensing technology offers advanced features to achieve optimal results and our product integration drives improved efficiency. This performance is delivered in a smaller footprint while reducing system latency to increase safety and throughput by providing a proprietary feature set to solve different use cases.

We serve a broad base of end-user markets, including automotive, industrial and others which include communications, computing and consumer. We believe the evolution of automotive, with advancements in autonomous driving, ADAS, vehicle electrification and the increase in electronics content for vehicle platforms, is reshaping the boundaries of transportation. With our extensive portfolio of AEC-qualified products, onsemi helps customers design high reliability solutions while delivering top performance. Within the industrial space, onsemi is helping OEMs develop innovative products to navigate the ongoing transformation across energy infrastructure, factory automation and power conversion.

As of April 1, 2022, we were organized into the three operating and reportable segments of PSG, ASG and ISG.

**Business Strategy Developments** 

Our primary focus continues to be on gross margin and operating margin expansion, while at the same time achieving revenue growth in our focused end-markets of automotive, industrial and communications infrastructure as well as being opportunistic in other end-markets, including obtaining longer-term supply arrangements with strategic end-customers. We are also focused on achieving efficiencies in our operating expenditures. While we believe we have made significant progress on gross margin and operating margin expansion, we continue to rationalize our product portfolio and have allocated capital, research and development investments and resources to accelerate growth in high-margin products and end-markets by moving away from non-differentiated products, which have had historically lower gross margins.

During the first quarter, we divested our six-inch front-end wafer manufacturing facility in Oudenaarde, Belgium and entered into a definitive agreement to sell our eight-inch front-end wafer manufacturing facility in South Portland, Maine, which is expected to close during the second quarter of 2022. We are also exploring the sale of certain other manufacturing facilities. We believe these actions, among others, will allow us to transition to a lighter internal fabrication model where our financial performance will be less volatile and not as heavily influenced by our internal manufacturing volumes. As actions are initiated to achieve our business strategy goals, we could incur accounting charges in the future.

We are focused on sustainability as we drive a common theme across all markets. During 2021, onsemi announced its commitment to achieving net zero emissions by 2040. As we initiate steps to achieve our sustainability goals, additional

investments may be required in the future in connection with such actions, although the timing and amounts of such investments are uncertain at this time.

Impact of the Novel Coronavirus Disease 2019 ("COVID-19") Pandemic on our Business

We have implemented proactive preventative protocols and updated our business practices in response to the ongoing COVID-19 pandemic. These changes are intended to safeguard our employees, contractors, suppliers and communities. While all of our global manufacturing sites and most of our distribution centers are currently operational, government mandates may order us to curtail production levels or temporarily suspend manufacturing or distribution operations in response to further outbreaks or new COVID-19 variants.

### Results of Operations

### Quarter Ended April 1, 2022 compared to the Quarter Ended April 2, 2021

The following table summarizes certain information relating to our operating results that has been derived from our unaudited consolidated financial statements (in millions):

	Quarter		
	April 1, 2022	April 2, 2021	Dollar Change
Revenue	\$ 1,945.0	\$ 1,481.7	\$ 463.3
Cost of revenue (exclusive of amortization shown below)	983.7	960.5	23.2
Gross profit	961.3	521.2	440.1
Operating expenses:			
Research and development	156.8	173.6	(16.8)
Selling and marketing	71.1	78.9	(7.8)
General and administrative	77.9	72.4	5.5
Amortization of acquisition-related intangible assets	21.3	25.0	(3.7)
Restructuring, asset impairments and other charges, net	(13.0)	42.5	(55.5)
Intangible asset impairment	_	2.9	(2.9)
Total operating expenses	314.1	395.3	(81.2)
Operating income	647.2	125.9	521.3
Other income (expense), net:			
Interest expense	(21.6)	(33.4)	11.8
Interest income	0.4	0.4	_
Other income (expense)	2.1	4.5	(2.4)
Other income (expense), net	(19.1)	(28.5)	9.4
Income before income taxes	628.1	97.4	530.7
Income tax provision	(97.1)	(7.1)	(90.0)
Net income	531.0	90.3	440.7
Less: Net income attributable to non-controlling interest	(0.8)	(0.4)	(0.4)
Net income attributable to ON Semiconductor Corporation	\$ 530.2	\$ 89.9	\$ 440.3

### Revenue

Revenue was \$1,945.0 million and \$1,481.7 million for the quarters ended April 1, 2022 and April 2, 2021, respectively, representing an increase of \$463.3 million, or approximately 31%. We had one customer, a distributor, whose revenue accounted for approximately 12.4% and 10.6% of our total revenue for the quarters ended April 1, 2022 and April 2, 2021, respectively.

Revenue by operating and reportable segments was as follows (dollars in millions):

	r Ended April 1, 2022	As a % of Total Revenue (1)	Quarter Ended April 2, 2021	As a % of Total Revenue (1)
PSG	\$ 986.7	50.7 %	\$ 747.0	50.4 %
ASG	689.3	35.4 %	531.5	35.9 %
ISG	 269.0	13.8 %	203.2	13.7 %
Total revenue	\$ 1,945.0		\$ 1,481.7	:

 $<sup>(1) \,</sup> Certain \, amounts \, may \, not \, total \, due \, to \, rounding \, of \, individual \, amounts.$ 

Revenue from PSG increased by \$239.7 million, or approximately 32%, for the quarter ended April 1, 2022 compared to the quarter ended April 2, 2021. The revenue from our Advanced Power Division and our Integrated Circuits, Protection and Signal Division increased by \$170.6 million and \$69.1 million, respectively, primarily due to our strategy to focus on a product mix

that yields higher margins and increase in average selling prices driven by improving economic conditions, compared to the quarter ended April 2, 2021.

Revenue from ASG increased by \$157.8 million, or approximately 30%, for the quarter ended April 1, 2022 compared to the quarter ended April 2, 2021. The revenue from our Automotive Division, Industrial Solutions Division and Mobile, Computing and Cloud Division increased by \$55.2 million, \$53.4 million and \$43.2 million, respectively. The increases were primarily due to our strategy to focus on a product mix that yields higher margins and increase in average selling prices driven by strong market demand, compared to the quarter ended April 2, 2021.

Revenue from ISG increased by \$65.8 million, or approximately 32%, for the quarter ended April 1, 2022 compared to the quarter ended April 2, 2021, largely driven by an increase in revenue from our Automotive Sensing Division of \$62.2 million. The increase was due to our strategy to focus on a product mix that yields higher margins, better demand and an increase in average selling prices.

Revenue by geographic location, based on sales billed from the respective country or region, was as follows (dollars in millions):

	r Ended April 1, 2022	As a % of Total Revenue (1)	Quarter Ended April 2, 2021	As a % of Total Revenue (1)
Singapore	\$ 555.7	28.6 %	\$ 509.0	34.4 %
Hong Kong	529.6	27.2 %	342.2	23.1 %
United Kingdom	345.5	17.8 %	268.9	18.1 %
United States	311.7	16.0 %	184.3	12.4 %
Other	202.5	10.4 %	177.3	12.0 %
Total revenue	\$ 1,945.0		\$ 1,481.7	

(1) Certain amounts may not total due to rounding of individual amounts.

### Gross Profit and Gross Margin (exclusive of amortization of acquisition-related intangible assets)

Our gross profit by operating and reportable segments was as follows (dollars in millions):

	arter Ended oril 1, 2022	As a % of Segment Revenue (1)		Quarter Ended Apri 2, 2021	As a % of Segment Revenue (1)	
PSG	\$ 474.7	48.1	%	\$ 246.5	33.0	%
ASG	366.7	53.2	%	206.8	38.9	%
ISG	119.9	44.6	%	67.9	33.4	%
Total gross profit	\$ 961.3	49.4	%	\$ 521.2	35.2	%

(1) Certain amounts may not total due to rounding of individual amounts.

Our gross profit increased by \$440.1 million, or approximately 84%, from \$521.2 million for the quarter ended April 2, 2021 to \$961.3 million for the quarter ended April 1, 2022. Our overall gross margin increased to 49.4% for the quarter ended April 1, 2022 from approximately 35.2% for the quarter ended April 2, 2021.

The significant increases in gross profit and gross margin were due to an increase in average selling prices and a favorable product mix with higher gross margins and improved manufacturing efficiencies. The favorable economic environment and significant improvement in demand in all end-markets, specifically in the automotive and industrial end-markets, contributed to increased demand and better pricing for our products. We were also able to pass most of the increases in input cost of raw materials and external manufacturing services to our customers.

### **Operating Expenses**

Research and development expenses were \$156.8 million for the quarter ended April 1, 2022, as compared to \$173.6 million for the quarter ended April 2, 2021, representing a decrease of \$16.8 million, or approximately 10%. The decrease was primarily due to a decrease in payroll-related expenses as a result of the restructuring programs implemented during 2021.

Selling and marketing expenses were \$71.1 million for the quarter ended April 1, 2022, as compared to \$78.9 million for the quarter ended April 2, 2021, representing a decrease of \$7.8 million, or approximately 10%. The decrease was primarily due to a decrease in payroll-related expenses as a result of the restructuring programs implemented during 2021.

General and administrative expenses were \$77.9 million for the quarter ended April 1, 2022, as compared to \$72.4 million for the quarter ended April 2, 2021, representing an increase of \$5.5 million, or approximately 8%.

### Other Operating Expenses

Amortization of Acquisition-Related Intangible Assets

Amortization of acquisition-related intangible assets was \$21.3 million for the quarter ended April 1, 2022, as compared to \$25.0 million for the quarter ended April 2, 2021, representing a decrease of \$3.7 million, or approximately 15%. The decrease in expense was primarily due to full amortization of certain of our technology-related assets from our previous acquisitions during 2021.

Restructuring, Asset Impairments and Other, Net

Restructuring, asset impairments and other, net was a credit of \$13.0 million for the quarter ended April 1, 2022, as compared to \$42.5 million for the quarter ended April 2, 2021. There were no new restructuring programs implemented during the quarter ended April 1, 2022. The credit includes a gain from the sale of an office building. Amounts incurred for the quarter ended April 2, 2021 primarily relate to the 2021 involuntary severance plan. For additional information, See Note 5: "Restructuring, Asset Impairments and Other, Net" in the notes to our unaudited consolidated financial statements included elsewhere in this Form 10-Q.

#### Interest Expense

Interest expense decreased by \$11.8 million to \$21.6 million during the quarter ended April 1, 2022, as compared to \$33.4 million during the quarter ended April 2, 2021. The decrease was primarily due to a decrease in our long-term debt, repayment of interest bearing debt using the proceeds from 0% Notes and the lack of amortization of debt discount on our convertible notes due to the adoption of ASU 2020-06. Our average gross long-term debt balance (including current maturities) for the quarter ended April 1, 2022 was \$3,256.3 million at a weighted-average interest rate of 2.7%, as compared to \$3,512.5 million at a weighted-average interest rate of 3.8% for the quarter ended April 2, 2021.

### Other Income (Expense)

Other income (expense) decreased by \$2.4 million from an income of \$4.5 million during the quarter ended April 2, 2021 to an income of \$2.1 million during the quarter ended April 1, 2022.

### Income Tax Provision

We recorded an income tax provision of \$97.1 million and \$7.1 million for the quarters ended April 1, 2022 and April 2, 2021, respectively, representing effective tax rates of 15.5% and 7.3%. The increase in our effective tax rate was substantially driven by the impact of discrete tax benefits in the prior year, relative to prior year pretax income. The prior year discrete benefits primarily related to releases in uncertain tax positions and net equity award windfalls.

For additional information, see Note 13: "Income Taxes" in the notes to the unaudited consolidated financial statements included elsewhere in this Form 10-Q.

### Liquidity and Capital Resources

This section includes a discussion and analysis of our cash requirements, contingencies, sources and uses of cash, operations, working capital and long-term assets and liabilities.

### **Contingencies**

We are a party to a variety of agreements entered into in the ordinary course of business pursuant to which we may be obligated to indemnify other parties for certain liabilities that arise out of or relate to the subject matter of the agreements. Some of the agreements entered into by us require us to indemnify the other party against losses, including but not limited to, losses due to

IP infringement, environmental contamination and other property damage, personal injury, our failure to comply with applicable laws, our negligence or willful misconduct or our breach of representations, warranties or covenants related to such matters as title to sold assets.

We face risk of exposure to warranty and product liability claims in the event that our products fail to perform as expected or such failure of our products results, or is alleged to result, in economic damage, bodily injury or property damage. In addition, if any of our designed products are alleged to be defective, we may be required to participate in their recall. Depending on the significance of any particular customer and other relevant factors, we may agree to provide more favorable rights to such customer for valid defective product claims.

We maintain directors' and officers' insurance policies that indemnify our directors and officers against various liabilities, including certain liabilities under the Exchange Act that might be incurred by any director or officer in his or her capacity as such.

While our future obligations under certain agreements may contain limitations on liability for indemnification, other agreements do not contain such limitations, and under such agreements, it is not possible to predict the maximum potential amount of future payments due to the conditional nature of our obligations and the unique facts and circumstances involved in each particular agreement. Historically, payments made by us under any of these indemnities have not had a material effect on our business, financial condition, results of operations or cash flows, and we do not believe that any amounts that we may be required to pay under these indemnities in the future will be material to our business, financial condition, results of operations or cash flows.

See Note 10: "Commitments and Contingencies" in the notes to our unaudited consolidated financial statements under the heading "Legal Matters" included elsewhere in this Form 10-Q for possible contingencies related to legal matters. See also Part I, Item 1 "Business - Government Regulation" of the 2021 Form 10-K for information on certain environmental matters.

### Sources and Uses of Cash

Our balance of cash and cash equivalents was \$1,645.1 million as of April 1, 2022. We require cash to: (i) fund our operating expenses, working capital requirements, outlays for strategic acquisitions and investments; (ii) service our debt, including principal and interest; (iii) conduct research and development; (iv) incur capital expenditures; and (v) repurchase our common stock.

Our principal sources of liquidity are cash on hand, cash generated from operations, funds from external borrowings and equity issuances. In the near term, we expect to fund our primary cash requirements through cash generated from operations and with cash and cash equivalents on hand. We also have the ability to utilize our Revolving Credit Facility, which has approximately \$1.97 billion available for future borrowings.

We believe that the key factors that could affect our internal and external sources of cash include:

- changes in demand for our products, including as a result of the COVID-19 pandemic, competitive pricing pressures, supply chain constraints, effective management of our manufacturing capacity, our ability to achieve further reductions in operating expenses, our ability to make progress on the achievement of our business strategy and sustainability goals, the impact of our restructuring programs on our production and cost efficiency and our ability to make the research and development expenditures required to remain competitive in our business; and
- our access to bank financing and the debt and equity capital markets that could impair our ability to obtain needed financing on acceptable terms or
  to respond to business opportunities and developments as they arise, including interest rate fluctuations, macroeconomic conditions, sudden
  reductions in the general availability of lending from banks or the related increase in cost to obtain bank financing and our ability to maintain
  compliance with covenants under our debt agreements in effect from time to time.

Our ability to service our long-term debt, including our 0% Notes, 3.875% Notes, 1.625% Notes, the Revolving Credit Facility and the Term Loan "B" Facility, to remain in compliance with the various covenants contained in our debt agreements and to fund working capital, capital expenditures and business development efforts will depend on our ability to generate cash from operating activities, which is subject to, among other things, our future operating performance and the timing of the full economic recovery from the COVID-19 pandemic, as well as financial, competitive, legislative, geopolitical, regulatory and other conditions, some of which may be beyond our control.

If we fail to generate sufficient cash from operations, we may need to raise additional equity or borrow additional funds to achieve our longer-term objectives. There can be no assurance that such equity or borrowings will be available, will be at rates or prices acceptable to us.

During the ordinary course of business, we evaluate our cash requirements and, if necessary, adjust our expenditures for inventory, operating expenditures and capital expenditures to reflect the current market conditions and our projected sales and demand. Our capital expenditures are primarily directed towards manufacturing equipment, and can materially influence our available cash for other initiatives. During the quarters ended April 1, 2022 and April 2, 2021, we paid \$173.8 million and \$77.0 million, respectively, for capital expenditures. We expect our capital expenditures to be in the range of 12% to 14% of revenue in 2022 to expand our manufacturing capabilities to meet the market demands and further improve our manufacturing cost structure. Future capital expenditures may be impacted by events and transactions that are not currently forecasted.

### Primary Cash Flow Sources

Our long-term cash generation is dependent on the ability of our operations to generate cash. Our cash flows from operating activities were \$478.6 million and \$218.5 million for the quarters ended April 1, 2022 and April 2, 2021, respectively. The increase of \$260.1 million was primarily attributable to a significant increase in net income due to our strategy to focus on a product mix that yields higher margins combined with better economic conditions resulting in increased demand for our products. Our ability to maintain positive operating cash flows is dependent on, among other factors, our success in achieving our revenue goals and manufacturing and operating cost targets. Management of our assets and liabilities, including both working capital and long-term assets and liabilities, also influences our operating cash flows, and each of these components is discussed below.

### Working Capital

Working capital, calculated as total current assets less total current liabilities, fluctuates depending on end-market demand and our effective management of certain items such as receivables, inventory and payables. Our working capital, excluding cash and cash equivalents and the current portion of long-term debt, was \$1,326.6 million as of April 1, 2022, and has fluctuated between \$1,326.6 million and \$885.0 million at the end of each of our last eight fiscal quarters. Our working capital, including cash and cash equivalents and the current portion of long-term debt, was \$2,801.3 million as of April 1, 2022, and has fluctuated between \$2,801.3 million and \$1,457.6 million at the end of each of our last eight fiscal quarters. We expect an increase in capital expenditures during 2022.

### Long-Term Assets and Liabilities

Our long-term assets consist primarily of property, plant and equipment, intangible assets, deferred taxes and goodwill. Our manufacturing rationalization plans have included efforts to utilize our existing manufacturing assets and supply arrangements more efficiently. We have taken actions to add manufacturing capacity with the acquisition of GTAT during 2021 and with the expected completion of the acquisition of the East Fishkill, New York fabrication facilities and certain related assets and liabilities on or around December 31, 2022. In connection with divestiture activities, we have wafer supply agreements in place for a period of time such that there is no disruption in our current ability to meet the demand for our products.

Our long-term liabilities, excluding long-term debt and deferred taxes, consist of liabilities under our foreign defined benefit pension plans, operating lease liabilities and contingent tax reserves. With regard to our foreign defined benefit pension plans, our annual funding of these obligations is equal to the minimum amount legally required in each jurisdiction in which the plans operate. This annual amount is dependent upon numerous actuarial assumptions. For additional information, See Note 6: "Balance Sheet Information and Other" and Note 13: "Income Taxes" in the notes to our unaudited consolidated financial statements included elsewhere in this Form 10-O.

### **Key Financing and Capital Events**

### Overview

Over the past several years, we have undertaken various measures to secure liquidity to pursue acquisitions, repurchase shares of our common stock, reduce interest costs, amend existing key financing arrangements and, in some cases, extend a portion of our debt maturities to continue to provide us additional operating flexibility.

### Cash Management

Our ability to manage cash is limited, as our primary cash inflows and outflows are dictated by the terms of our sales and supply agreements, contractual obligations, debt instruments and legal and regulatory requirements. While we have some flexibility with respect to the timing of capital equipment purchases, we must invest in capital equipment on a timely basis to allow us to maintain our manufacturing efficiency and support our platforms for new products.

### Debt Guarantees and Related Covenants

As of April 1, 2022, we were in compliance with the indentures relating to our 0% Notes, 3.875% Notes and 1.625% Notes and with covenants relating to our Term Loan "B" Facility and Revolving Credit Facility. The 0% Notes, 3.875% Notes and 1.625% Notes are senior to the existing and future subordinated indebtedness of onsemi and its guarantor subsidiaries, rank equally in right of payment to all of our existing and future senior debt and, as unsecured obligations, are subordinated to all of our existing and future secured debt to the extent of the assets securing such debt.

### **Recent Accounting Pronouncements**

For a discussion of recent accounting pronouncements, see our 2021 Form 10-K and Note 3: "Recent Accounting Pronouncements" in the notes to our unaudited consolidated financial statements included elsewhere in this Form 10-Q.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in market risk from the information presented in Part II, Item 7A "Quantitative and Qualitative Disclosures About Market Risk," in the 2021 Form 10-K.

#### Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered in this report, our disclosure controls and procedures were effective to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the required time periods and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

We also carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of changes to our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that occurred during the fiscal quarter ended April 1, 2022.

There have been no changes to our internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the fiscal quarter ended April 1, 2022 which have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

#### PART II: OTHER INFORMATION

### Item 1. Legal Proceedings

See Note 10: "Commitments and Contingencies" under the heading "Legal Matters" in the notes to the consolidated unaudited financial statements included elsewhere in this Form 10-Q for additional information on our legal proceedings and related matters. See also Part I, Item 1 "Business - Government Regulation" of the 2021 Form 10-K for information on certain environmental matters.

### Item 1A. Risk Factors

Our business, financial condition and results of operations are subject to a number of trends, risks and uncertainties. We review and, where applicable, update our risk factors each quarter. There have been no material changes from the risk factors disclosed in Part I, Item 1A of the 2021 Form 10-K.

#### Forward-Looking Statements

This Quarterly Report on Form 10-Q includes "forward-looking statements," as that term is defined in Section 27A of the Securities Act and Section 21E of the Exchange Act. All statements, other than statements of historical facts, included or incorporated in this Form 10-Q could be deemed forward-looking statements, particularly statements about our plans, strategies and prospects under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations." Forward-looking statements are often characterized by the use of words such as "believes," "expects," "projects," "may," "will," "intends," "plans" or "anticipates," or by discussions of strategy, plans or intentions. All forward-looking statements in this Form 10-Q are made based on our current expectations, forecasts, estimates and assumptions and involve risks, uncertainties and other factors that could cause results or events to differ materially from those expressed in the forward-looking statements. Certain factors that could affect our future results or events are described under Part I, Item 1A "Risk Factors" in the 2021 Form 10-K, in this Form 10-Q and from time to time in our other SEC reports. Readers are cautioned not to place undue reliance on forward-looking statements. We assume no obligation to update such information, except as may be required by law. You should carefully consider the trends, risks and uncertainties described in those reports and subsequent reports filed with or furnished to the SEC before making any investment decision with respect to our securities. If any of the following trends, risks or uncertainties actually occurs or continues, our business, financial condition or operating results could be materially adversely affected, the trading prices of our securities could decline and you could lose all or part of your investment. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by this cautionary statement.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information regarding repurchases of our common stock during the quarter ended April 1, 2022:

$Period^{(1)}$	Total Number of Shares Purchased	Average Price Paid per Share (\$)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar value of Shares that May Yet be Purchased Under the Plans or Programs (in millions) (\$)
January 1, 2022 - January 28, 2022	_	_	_	1,295.8
January 29, 2022 - February 25, 2022	_	_	_	1,295.8
February 26, 2022 - April 1, 2022				1,295.8
Total				

(1) These time periods represent our fiscal month start and end dates for the first quarter of 2022.

Shares withheld to satisfy statutory tax withholding requirements related to the vesting of share-based awards are not issued or considered repurchases of our common stock under our Share Repurchase Program and, therefore, are excluded from the table above.

Share Repurchase Program

Under the Share Repurchase Program, we may repurchase up to \$1.5 billion (exclusive of fees, commissions and other expenses) of our common stock from December 1, 2018 through December 31, 2022, subject to certain contingencies. Subject to the discretion of our board of directors, we may repurchase our common stock from time to time in privately negotiated transactions or open market transactions, including pursuant to a trading plan in accordance with Rule 10b5-1 and Rule 10b-18 of the Exchange Act, and the timing of any repurchases and the actual number of shares repurchased depend on a variety of factors, including our stock price, corporate and regulatory requirements, restrictions under our debt obligations and other market and economic conditions. There were no shares repurchased under the Share Repurchase Program during the quarter ended April 1, 2022.
